

#### LAUREL TO DR. WHALLEY

The American Association of University Women recently honored Dr. Peggy Whalley, professor of Obstetrics and Gynecology, with its Laurel Award, given to honor a woman college graduate who has made a significant contribution "perhaps unknown to the public" to the community. The first holder of the Jack Pritchard Professorship at the center, Dr. Whalley was recognized for developing the high-risk pregnancy unit at Parkland which provides specialized care of expectant mothers with diabetes, high blood pressure or heart disease.

## Conference covers goals, policy for HSC future

The future fabric of The University of Texas Health Science Center was sketched by nearly 70 faculty, student and community leaders in a conference at the center April 10.

Results of the meeting on "The Mission of The UT System: Directions for the Future" will be presented May 5-6 at a System meeting at the Dallas-Fort Worth Airport Marina Hotel.

Seven presentations on various aspects of the center formed the basis for group discussions during the April 10 conference.

Papers and authors were: "Medical School Programs," Dr. Frederick Bonte; "Graduate School Programs," Dr. Ronald Estabrook; "Allied Health Programs," Dr. Donald Pool; "Delivery of Health Care," Dr. Albert Roberts; "Societal Expectations," L.S. Turner Jr.; "Governance," Dr. Bettie Sue Masters; and "Research," Dr. Dan Foster.

HSC President Dr. Charles Sprague chaired the general meeting and will prepare the final report to be submitted May 10.

Those on the medical school program discussion group included Drs. M.T. Jenkins, J. Wayne Streilein, Eugene Frenkel, Roger Rosenberg, Paul MacDonald, Ronald Jones, Bryan Williams, Elgin Ware, Richard Anderson and George Edwards, with Vice-President

Julius Weeks, student John Hughes and business leader Ben Lipsky.

Discussing the graduate program were Drs. James Bunting, David Mishelevich, Bruce Fallis, Samuel McCann, George Race, George Weiss, Mary Esther Gauden, John Watson, Paul McCollum, and Peter Fawcett, with student John Moltz.

Allied Health program discussants were Drs. Andres Goth, Ivan Danhof, Maurice Korman, Jack Reynolds, and Clifford Seidel, with students Sandra Oakes and Dennis Burns.

Health Care delivery discussants included Drs. Albert Roberts, Marion Zetzman, Jack Pritchard, John Lynn, Thomas Moore, Charles Baxter, John Hedl Jr., and Charles Mitchell, with Business Manager Hollis Smith, student John Shary and community leaders Roy Dulak and Avery Mays.

Discussing societal expectations were Drs. Dan Foster, Joel Kirkpatrick, Gladys Fashena, A.W. DeLoach, John Eisenlohr, Thomas Smith, Michael Lawler and Constantine Stefanu, with students Arnold Kabler and Ron Watson and community leader Rene Martinez.

The Governance panel included Drs. Barry Schwarz, Judith Forgotson, Melvin Platt, William Neaves, Robert Dain, T.P. Rajashekhar and Donald Hendricks, with student Alfred Rodriguez.

THE UNIVERSITY OF TEXAS HEALTH SCIENCE CENTER AT DALLAS

APRIL 1976

## Memorials honor Dr. Gregory

Two memorial funds have been established at the health science center in honor of Dr. Charles F. Gregory, Southwestern's illustrious chairman of Orthopedic Surgery, who died March 31.

Dr. Gregory, head of the division since 1956, had been ill since he was stricken with a heart attack last Dec. 27. He died at his home, 5700 Stonegate, Dallas. He was 56.

Medical school dean Frederick Bonte summed up Southwestern's loss in the death of Dr. Gregory with this tribute:

"Dr. Gregory was an inspirational leader of his associates and house staff, a skillful surgeon who served many a member of the Southwestern family, and a wise and thoughtful man, whose advice was often sought when difficult problems were at hand. Although he rose to international prominence in his specialty, his presence was always felt on this campus, for he was truly one of the founders of a great medical faculty."

One medical school fund in the surgeon's memory will create the annual Charles F. Gregory Memorial Lectureship in Orthopedic Surgery at the school he served with distinction for two decades. A second fund will provide assistance for residency training in orthopedics here.

Dr. Gregory had been the William B. Carrell Scottish Rite Professor of Orthopedic Surgery since that professorship's establishment in 1965. He had been professor of Orthopedic Surgery since 1960.

An internationally-recognized authority on orthopedics, Dr. Gregory was widely sought as a lecturer in this country and abroad and was an active leading participant in professional, school and civic affairs. He had held numerous prestigious offices, including presidency of the American Orthopedic Association, the Texas Orthopedic Association, the American Board of Orthopedic Surgery, and, most recently, the National Association of Orthopedic Chairmen.

At Southwestern, Dr. Gregory served in many capacities in addition to his roles as a highly-regarded teacher and practitioner. He had been vice-president of the Faculty Senate and Assembly, co-chairman of a curriculum review committee, chairman of the committee on committees, and a member of the student admissions and Southwestern Medical Foundation liaison committees.

He was chief of Orthopedic Surgery at Parkland Memorial, Dallas Veterans Administration and Children's Medical Center hospitals and had been president of the Parkland Staff Society. He also was on the consulting staffs of the Texas Scottish Rite Hospital for Crippled Children, and St. Paul's, Baylor, Presbyterian and Gaston Episcopal hospitals.

The orthopedics authority had presented more than 40 major lectureships and visiting professorships at medical centers and before professional organizations, including the British, Australian and Canadian orthopedic associations. He was a national consultant in Orthopedics

to the Surgeon General of the U.S. Air Force and was consultant to Brooke Army Medical Center. He served on the surgical advisory board of Shriner hospitals.

His many civic appointments included service on the boards of directors of the University of Dallas, the Dallas Cerebral Palsy Foundation, the Dallas County Medical Society and the local chapter of the American Cancer Society.

In November, 1963, Dr. Gregory was among the Southwestern doctors who attended Texas Gov. John Connally. The surgeon repaired tendons in Gov. Connally's hand which were damaged by a bullet which struck him during the assassination of President John F. Kennedy.

Dr. Gregory twice served in the U.S. Navy Medical Corps, in 1945-46, and again in 1952-54 in Korea.

Among honors he received was the Kappa Delta Award for research in Orthopedic Surgery. He authored numerous scientific papers in his specialty.

Dr. Gregory was a founding member of the American Trauma Society, and held appointive posts in such other organizations as the American Academy of Orthopedic Surgery and the American and Texas Medical Associations.

An adjunct professor at Southern Methodist University's Institute of Technology, he annually lectured the senior class of the SMU Law School.

A native of Battle Creek, Mich., Dr. Gregory received his B.S. degree from

Dr. Charles F. Gregory

Indiana University in 1942, and his M.D. from Indiana School of Medicine, Indianapolis, in 1944. He was an instructor at Indiana from 1951 until 1956, when he joined Southwestern as associate professor and chairman of Orthopedic Surgery.

Surviving are Dr. Gregory's wife, Dorothy; two sons, Charles Gregory II of San Antonio and Michael Gregory of Irving; two grandsons; and two sisters, Miss Margaret E. Gregory of Dallas and Mrs. Floris Neenan of South Bend, Ind.

Final rites were held April 3 at Christ the King church, with members of the medical faculty among honorary pallbearers. Burial was in Hillcrest Memorial Park.

# Employees receive recognition for service

by JOHN WEEKS

The medical school's "yesterdays" in the old Oak Lawn Avenue shacks were fondly recalled during the annual health science center service awards luncheon, hosted by center president Dr. Charles Sprague on Feb. 20.

Twenty employees were cited for their long service, which cumulatively totals nearly three and a half centuries. Some 70 persons attended the buffet affair at the LeBaron Hotel. Among the guests were 32 former awardees, plus administrators, department chairmen, faculty and staff members.

Guest speaker was Dr. John Vanatta, longtime professor of Physiology. Dr. Vanatta said it "seems like yesterday" that classes were being held under somewhat tenuous circumstances during the late 1940's in prefab, barracks-type buildings.

One day, he recalled, a monkey came to class.

"I called L.O. (Kennedy) who came in with his gloves on and took him away," he said. It was awhile before things settled back to normal.

Kennedy himself was informally honored at the luncheon, along with Elwood Beasley. The two veteran employees, with 32 and 31 years' service, respectively, will retire later this year. Both spoke briefly, and Kennedy brought a howl from the audience with this response when asked what he will miss most after retirement:

"Eating and having Dr. Sprague pick up the tab."

The health science center president thanked all honorees, present and past, saying the institution's degree of success would have been impossible "without the help of those of you who've given long and dedicated service." He presented service pins and certificates to the guests of honor.

Other health science center employees who have earned awards for 10 and 5 years of service and who were scheduled for recognition within their departments are:

**10 years** — Nell Marie Brown, Barbara Cameron, Consuelo Chavez, James F. Cooper, John Cooper, Carol

Clonch, Carl Crenshaw, Thelma Criddle, Carnell Dawson, Rita Eckles, Willie George, Katy Jo Hammon, Linda Horton, Lula Jackson, Andrew Johnson, John Johnson, Albert Marshall, Stephen Morawski, Violet Ray, Ellsie Ryan, James Womack and Mary Bob Wylie.

**5 years** — Martha Bennett, Florine Byrd, Betty Byrum, Rubye Cager, Leta Condra, Willa Denton, Mary Ann Edgar, Grantham Eubank, Craig Freeman, Thelma Fuller, Dorothy Gaddy, Clarence Garrett, P. Elizabeth Geddis, Martha Hicks, Minnie Howard, Barbara Hoyt, James Isaac, Betty Key, Phyllis Kitterman and Linda Kreder.

Also, Marilyn Laningham, George

Lawton, Sarah Leary, Linda Lewis, Thomas Matasso, Gwendolyn McFarland, Ralph Miller Jr., Marjorie Mortland, Helen Newsome, A. Kathryn Nicolaisen, Kenneth Patrick, Oliver Penelton, Beulah Porter, Richard Rautenstrauch, Jessie Riley, Mary Ellen Roche and Jett Rogalla.

Also, James Salter, Jerry Seitzler, Roxie Shaw, Judith Silverstein, Ann Smallwood, Carol Stover, Virginia Surber, Kenneth Swearingen, Velvet Tate, Alberta Terry, Shirley Thomas, Mary Tobleman, Connie Wade, Jacqueline Wakeland, Robert Williams, Betty Wilson and Virginia Wilson.

Dr. John Vanatta, center, pauses with, left to right, James Harrison, Maro Speight, John Jackson and Curtis Garner, who were honored for their 20 years of service.

## Library makes changes

The library has made some recent changes and additions in its format in what assistant director Dr. S. Joe McCord terms "a continuing effort toward improvement" for library patrons.

During the first half of this month, a new photocopy machine with a 20-bin sorter will be on trial use in the library. While the photocopier is intended primarily for custom copy use, patrons needing its collating capabilities will be able to use the machine at a charge of 5 cents per copy.

Use of the new machine will probably be restricted to regular office hours at least during the two-week trial period. If demand warrants its retention, it will then be available on the same basis as the other copiers.

Cost of custom copying — leaving materials to be copied with the Photocopy Service clerk and picking up copies later — has been reduced from 10 cents per page to 7 cents per page.

Another major change has been the relocation of Photocopy Service, now located near the circulation desk. In addition, three of the coin-operated machines are now available for departmental account copying, using the orange auditoron keys checked out from

Photocopy Service. This makes a total of five machines now available for account use.

Items left in the library are kept at the circulation desk until claimed by the owners. If not claimed after an indefinite period, most articles are eventually discarded.

A limited number of small lockers for personal property are available for students or faculty. These lockers are located in the stacks on the third and fourth floors. Locker keys may be checked out at the circulation desk.

### Women in Science and Medicine

## Videotape gains best in Humanities

The Television Services Division of Biomedical Communications captured a first place award for its production of the "Women in Science and Medicine" videotape filmed last November in recognition of Women in Science and Medicine month. The award was given by the Southern Division of the Instructional Television Association.

Produced by Jane Sallis, and directed by Robert Tubbs, the program was

HSC president Dr. Charles Sprague, center, thanks Frances Wrightsman, left, and Richard Dotson, right, for their 25 years of service to the center. Ms. Wrightsman was presented a necklace and Dotson received a rod and reel in recognition of their work.

Those recognized for 15 years of service were Ora Mae Barrows, Linda Bolding, Katharine Chichilla, LaRue Christian, Jean Clark, Rita Douglass, Jacqueline Gillentine, Mickey Don Glass, Alvis Harris, Lorenzo Jacob, Phyllis James, Patricia Ladd, Abraham Prengler and Henry Turner.

chosen as the best depiction of significant social or cultural issues from the Humanities category. Tom Matasso, chief communications engineer, submitted the project to ITVA for judging.

The videotape features Dr. Kathryn Taubert, instructor in Physiology, who leads a panel discussion on the variety of roles for contemporary women in science and medicine. The participating group is made up of women faculty members and

students from the center.

Dr. Tom Sweeney, Television Services director, said he was especially pleased the program gained special attention. "I'm delighted our personnel were recognized for their fine work," he commented.

Currently being used by Medical Information for tour groups, the program may be viewed by contacting Jack Cavanaugh at ext. 3692.

# newsmakers . . . newsmakers . . .

## Anesthesiology

News in our department this month includes the recent re-election of department chairman, **Dr. M.T. Jenkins**, as chairman of the AMA Interspecialty Council for 1976.

Also of interest, Dr. Jenkins gave the Crawford Long Memorial Lecture at Emory University School of Medicine in Atlanta, Ga., on April 1.

Since March 17, our visiting professor, **Dr. Inkeri Kivalo**, has been a part of our group. Dr. Kivalo is assistant professor of Anesthesiology at the University of Helsinki, Finland, and head of the Anesthesiology Department of the University Central Hospital of Helsinki Women's Clinic. He is to be here through April 24.

**Eleanor Goar** was recently promoted to Administrative Services Officer. Recent additions to the staff include **Doris Brock**, administrative secretary; **Florence Testori**, transferring as senior secretary from Family Planning; **Karen Heaton**, clerk-typist; **Karyl Reedy**, senior secretary; **Marilyn Landsberg** secretary, who transferred from Personnel; and **Gene Bauer**, Accountant I. Welcome aboard!

—Karen Heaton

## Biomedical Communications

**Pat Hafford**, equipment technician in Audiovisuals, recently attended a national lighting seminar presented by the National Association of Educational Broadcasters held at the KERA-TV (Channel 13) studio.

## Cardiopulmonary

Congratulations to **Delories LaRue**, Cardiopulmonary research technician, who was recently chosen "Single Parent of the Year" by the Dallas Chapter of Parents Without Partners. This makes her eligible for the National Finals in New Orleans, La.

**Dr. Craig Miller** and wife, **Kathy**, are proud parents of a daughter, **Sarah Kathleen**, who was born Dec. 15. Other proud parents are **Dr. Wyatt Rousseau** and his wife, **Genie**, who have a new son, **William**, born Jan. 7.

**Dr. Eliot Huxley** and wife, **Fran**, also have a new son, **Stephen Michael**, born Feb. 18. **Dr. Drew Gaffney** and his wife, **Sheila**, have a new member in their family, daughter **Andrea**, who was born Oct. 31. Congratulations!

**Jean Cruz**, research technician, recently vacationed in South America and had a great time. **Bob Olsen**, research associate, fell in love with San Francisco after spending a week there.

**Charlotte Dahm** has joined our group as a secretary. We welcome her.

—Nelda Holcombe

## Cell Biology

After several months of not reporting any news, there has been a lot happening around our department.

Spring fever has most everyone floating on a euphoric cloud — or at least until the next "freeze."

We want to express heartiest congratulations to **Katy** and **Bill Hammon** on the birth of a beautiful baby girl, **Rebecca Diane**, on Feb. 11. **Becky** weighed in at 8 lbs. 2 oz.

The department enjoyed honoring **John Jackson** upon his retirement with a party on Jan. 28. Friends from all over the school came to join in this well-deserved tribute to Mr. Jackson. His kind words and smiling face will be greatly missed by all of us.

An informal farewell party was given by **Dr. Wayne Streilein** for his secretary, **Jane McKelvey**, who left at the end of February to assume duties as a social worker in Henderson, Tx. We will all miss Jane and our best wishes go with her in this new adventure.

Those who have escaped the flu bug can consider themselves most fortunate. On the other hand, the tennis players around here have not fared very well, judging by the cast on **Dr. Howard Toben's** arm and **Dr. Ed Moticka's** limp from an injured ankle. **Dr. Michael Parmely's** ankle has also suffered from the sport. Dare I go on?

However, it was the ski slopes of Colorado that affected **Dr. Streilein's** knee. Hopefully, all are on the way to mending properly. Our basketball team best watch their step!

Since September, we have added many new faces to Cell Biology. We welcome **Glenda Graham**, **James Henderson**, **Anna Floyd**, **Maud Ericksson**, **Mary Owens**, **Rhoda Porterfield**, **Lawrence Wagnon**, **Richard Burne**, **Hylan Moises** and **Drs. Jean Saint-Cyr** and **Donald Woodward**. Welcome to Southwestern and to Big D!

**Dr. Donald Woodward** has assumed dual responsibilities as a new professor in the Departments of Cell Biology and Physiology. Besides coordinating and instructing the center's reorganized Neurobiology course, he is continuing his research in the physiological development of the cerebellum.

Before joining our faculty, **Dr. Woodward** was professor of Physiology and associate professor in the Center for Brain Research at the University of Rochester School of Medicine and Dentistry.

Our deepest and sincerest sympathies are extended to **Roselyn Powell** on the death of her father and to **Dr. Leonard Seelig** in the loss of his grandmother.

—Suzanne Martin, et al

## Dermatology

We have a new secretary in **Dr. James Herndon** and **Dr. James Gilliam's** office — **Lynda Boyce**, who came to us from Grants-Accounting on Feb. 1. She takes the place of **Tenita Fort** who left at the end of January to finish school. **Lynda** is from Dallas, and she and her husband, **Bari**, are presently residing in Garland.

## Internal Medicine

We are pleased to announce the birth of **John Bradley Fitzgibbons**, son of **John** and **Kathy Fitzgibbons**, on Jan. 28. **Kathy** formerly was a technician for **Dr. James Shorey**.

**Dr. Daniel Foster**, professor of Internal Medicine, was the Sam Grant Visiting Professor at Washington University in St. Louis, Missouri, March 22-26. While there he conducted Grand Rounds and discussed the "Regulation of Ketogenesis" and the "Diabetic Coma State."

## Mail Room

**Frank Chavarria** has just returned from a week's vacation in Merida, Yucatan, Mexico. There he visited friends and attended the annual carnival celebration. Within Merida's 75-mile area, you'll find the world's most brilliant archeological zone, he reports.

—Jay Lambert

## Library

**Dr. Donald Hendricks**, director of the Library and of the South Central Regional Medical Library Program (TAL-

ON), and **John Murphey**, assistant director of TALON, attended the Regional Medical Library Directors' meeting in Washington, D.C., in February. While there, they engaged in contract negotiations with officials of the National Library of Medicine on the continuation of services under the existing RML contract.

Another topic of great interest discussed at the meeting concerned the potential impact of the enactment of the new copyright law on the Interlibrary Loan service.

The National Library of Medicine approved the proposed modifications to this year's TALON contract. The contract includes funds for continuing Interlibrary Loan reimbursement to the 12 Resource Libraries in the region, extending the Duplicate Periodical Program, and establishing a new position for a program development coordinator.

Activities of the coordinator include regional extension work, grants assistance, resource development, continuing education and staff development and audiovisual coordination.

**Mrs. Carmel Corriveau Bush**, formerly the TALON Regional Audiovisual Coordinator at the University of Arkansas Health Sciences Library in Little Rock, Ark., has accepted this newly established position and joined the TALON staff here on March 2.

**Carmel** completed her graduate work in Library Science at the University of Illinois in July, 1972. Following that, she completed the Postgraduate Training Program for Science Librarians at the University of Tennessee Medical Units in August, 1973. **Carmel** recently married **Steve Bush**, a systems analyst in MCRC.

—Virginia Surber

## Minority Affairs

Congratulations to **George** and **Gwen Payne** on the arrival of adopted son, **Marcus Charles**, in March. Everyone celebrated the event with a shower on March 19. The most popular guest was baby **Marcus** himself!

## Personnel

**Bob Stiefel** took an early spring vacation and recently spent five days in Florida visiting friends.

We wished Happy Birthday to **Miriam Marriner** on March 10 and to **Lora Tyler** on March 31.

We also want to welcome **Lora** to our department as our newest employee. She is working with **Nancy Stone** in the Employment Section.

—Josie Lopez

## Rheumatology

The unit has really exciting news! **Linda Franke** and her husband **Bob** are now the proud parents of a brand new baby girl! **Jennifer Rhea** was born on March 4 and weighed 7 lbs. 1 1/2 oz.

We're also happy about the new addition to **Don** and **Norma (Battles) Coffee's** family, **Leslie Allison**, who was born on Feb. 19. She weighed 9 lbs. 12 oz. **Norma** was part of our group two years ago, and **Don** was formerly in Accounting.

**Olivia White** traveled to St. Louis, Missouri, where she attended the National Advisory Committee meeting of the World Hunger Task Force of the United Church of Christ.

## School of Allied Health Sciences

The new face in the administration

office is **Margaret Qualls**, who replaced **Sharon Dusek** as **Dr. John Schermerhorn's** secretary.

## Student Store

During the November commemoration of Women in Science and Medicine, the Student Store was successful in obtaining approximately \$50 worth of books through donations from faculty, staff and students for our library.

About \$15 in pamphlets were also donated. The books committee was coordinated by **Sallie Allen**.

Some of the volumes now available in the library in paperback are *The Diary of Anais Nin - Volumes One, Two, Three and Four*, *Black Women in White America*, *The Descent of Woman*, *The First Sex, A Vindication of the Rights of Woman*, *Women and the Public Interest*, *Man's World-Woman's Place*, *The Nature and Evolution of Female Sexuality*, and *Our Bodies Ourselves—a Book By and For Women*.

We sincerely thank all of you who were donors during this event.

**J.D. Walden**, our part-timer, has departed for Lubbock. The new face at the register is **Scott Snyder**. **Scott** has held several illustrious positions—among them, as a clown at Fair Park. He formerly managed the buffet at J.C. Penney's.

**Sallie Allen** attended the National Association of College Stores convention in New Orleans, La., April 9-16.

We have been frantically busy taking graduation announcement orders, instrument orders for the freshman class, taking inventory and selling Dallas Symphony tickets. We still have Symphony tickets available for the May 10 concert. The concert begins at 8 p.m. in the Gooch Auditorium.

The last we heard from **John Franklin** was via a postcard from Puerto Vallarta, Mexico, in February. Basking under the palm trees was a welcome respite compared to the rigors of the Student Store, according to **John!**

—Sallie Allen

## Surgery

We have recently added two new secretaries to our department — **Maxine Clark** in Plastic Surgery and **Vicky Stinson** in Oral Surgery. **Vicky** worked in Surgery two years ago before the birth of her son and has decided to join us again.

We also have a new faculty member who joined us in March, **Dr. Frederick Sklar**, in Neurosurgery.

The department held a surprise party for **Dr. Ronald Jones** at the Faculty-Alumni Center on March 3. **Dr. Jones** was presented a gift of Steuben glass as a token of appreciation from the department.

We welcome our new department chairman, **Dr. William Fry**, and his secretary, **Ms. Vera Humm**, who joined us this month.

—Barbara Hoyt

## Safety Corner

**Caution:** Do not use or store formaldehyde in areas where hydrochloric acid may be present — the two react in humid air to produce bis-chloromethyl ether, a substance reported to cause lung cancer in animals and possibly in humans.

## Taubert heads group

Dr. Kathryn Taubert has been elected president of the new women's organization of campus. Other officers chosen in a meeting in March were Suzanne Weakley, vice-president, Nell Mock, secretary, and Janie Covington, treasurer.

Fourteen executive committee members were also elected and include Robin Bier, Barbara Cambridge, Dr. Adriana Cobo-Frenkel, Maggie Coomes, Dr. Mary Esther Gaulden, Dr. Sue Griffin, Mary Ellen Hogan, Marcia Kaplan, Meg

## Book sale continues

Duplicate medical volumes, a large selection of books covering a variety of topics, plus first editions and special materials will be featured for purchase at the library's third annual book sale now being held through April 27.

Collected funds from the sales, which will range from 50 cents to \$5, will be used by the Friends of the Medical Library group to purchase special collection materials for the library as well as subscriptions to 40 popular journals and newspapers for patron browsing.

The books will be displayed in the library conference room (E1.402) on the ground floor across from Medical Illustration Services.

### ART SHOW GARNERS STUDENT FUNDS

Mrs. Ronald Jones, right, and Mrs. Thomas Woods set up exhibits for the fourth annual Medical Center Woman's Club Art Festival held in March. The \$5,050 collected from sale and auction of over 400 displayed works benefited the emergency loan fund for Southwestern medical students and interns and residents at Parkland Hospital, increasing the fund to around \$30,000. Mrs. Jones coordinated the event and Mrs. Eugene McDermott was honorary chairwoman.

## Gallery Exhibits

Our featured artist this month is Louise Duggins of Dallas. Louise began painting in 1969, studying with local artists Maude Ruff, Naomi Brotherton and Bud Biggs. She has also studied in workshops under such artists as Edgar Whitney, Robert Wood, George Post and Bud Shackelford, as well as Zoltan Szabo.

Louise is a member of the Dallas County Hospital Auxiliary and serves as a volunteer in the gift shop at Parkland.

She has participated for two years in the Faculty Wives Art Festival here at the center and has had four one-woman shows in addition to her current exhibit here. Her paintings are in collections in the local area as well as throughout the United States.

—Wendell Gunter

## Physical Plant

Dorothy Harper, our Executive Housekeeper, recently became a member of the Lone Star Chapter of the National Executive Housekeepers Association. Since becoming a member she has helped the group write its Standing Rules and

Kaufmann, Juanito Polito, Jane Sallis, Rosa Schachle, Ruth Thornton and Carolyn Wickwire.

In a recent board meeting, the officers and committee members discussed membership eligibility, by-laws and goals for the group. They plan to include a calendar of events in their first newsletter, to be published in early May and sent to all interested persons.

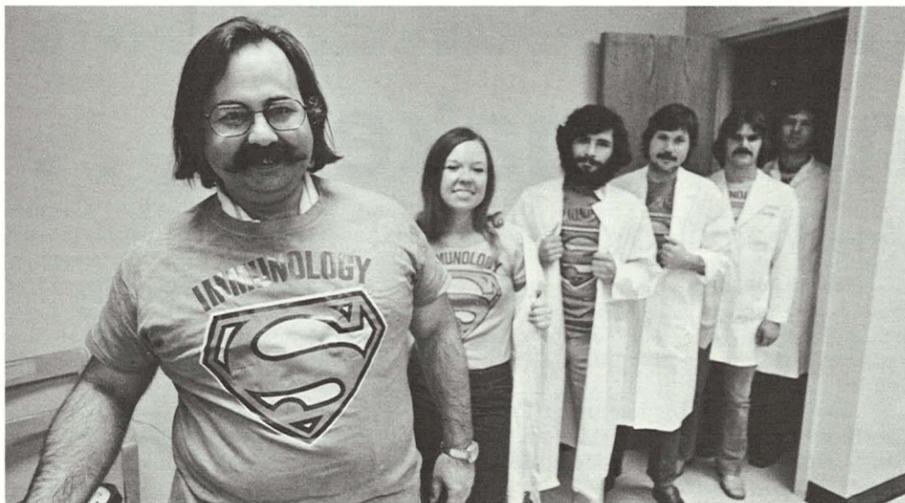

A top priority of the organization is finding a name that will "express with zest the individuality and goals of the women," Ms. Mock noted.

## '411' charge affects center

The health science center, like private Dallas residents, will be charged for local information calls beginning May 1.

Negotiation is still underway as to the exact number of free "411" inquiries that will be allowed each instrument at the center, but Assistant Business Manager M.O. Bridges expressed the hope that center workers make only the minimum number of such calls.

There are, he said, some 1,070 telephone instruments in the health science center complex, and the potential for additional charges is considerable.

And here they are — the "super-people" of Immunology! Emerging from the closet is Gary Bills, followed by Jerry Fulton, Mike Carroll, Mark Sigelman, JoAnn Trial, and last but certainly not least, Dr. Jack Kettman, who organized the group.

## Super-shirt fits to a T

by JAMIE PICKRELL

Faster than a speeding virus . . . more powerful than a phagocyte . . . able to leap the Green Science Building in a single bound!

No, it's not Superman — at least, not exactly. It's Dr. J. Wayne Streilein and the seven students of the Immunology graduate program.

Why, you might be wondering, would a professor and seven graduate students be wearing Superman T-shirts?

"We wanted to announce to the world that we have an enormous program," Dr. Streilein explained. "It's the first graduate program in Immunology in the country."

The T-shirt idea was based on an informational poster designed for the Immunology program by Bill Gramley of Medical Illustration Services, Design Unit.

The placard has been sent to around 1,200 schools and departments all over the world, resulting in upwards of 100 inquiries and 50 applications for the upcoming eight Immunology graduate positions.

"I think we were very courageous to begin this project," Dr. Streilein noted. "But the real credit goes to Gramley and to Dr. Ronald Estabrook, (Graduate School dean) who had to go out on a limb to support this."

"We wear the T-shirts everywhere and anywhere," he commented. "They have really put our program on a large profile because everyone identifies us with the shirts."

The reaction of the graduate students to all of this?

"Super, man!" one said.

## Personnel sets courses on terminology, managing

Courses in medical terminology, supervisory management and institutional communications are now being offered by Personnel for center employees. Classes are directed by Terry Tyndall, Personnel training specialist, who said the programs are "part of our staff development efforts" to aid employees.

Two classes in medical terminology are currently underway, and others should be scheduled later in the spring. These sessions meet one day each week for a one-hour period for eight weeks.

Classes on supervisory management began on April 7 and are to continue through May 26. Developed by the American Management Association, ses-

sions will meet one day each week for an hour. Tyndall urged persons in supervisory capacities to participate in the course, which covers a wide variety of topics. These include organization planning, grievances, controlling discipline and motivation.

Problems within the institution are dealt with in the institutional communications series developed by Berlo Communications. This course meets twice a week for two weeks and is to be scheduled shortly.

Those interested in enrolling in these courses should contact Josie Lopez in Personnel, Ext. 3401.

Regulations and has also been nominated for a Board member.
