

Evolution Concepts

Evolution:

Embryology:

* Population:

Phylogeny:

* Natural Selection:

* Homology:

* Sexual Selection:

* Convergent Evolution:

* Gene Flow:

* Analogous Structure:

* Genetic Drift:

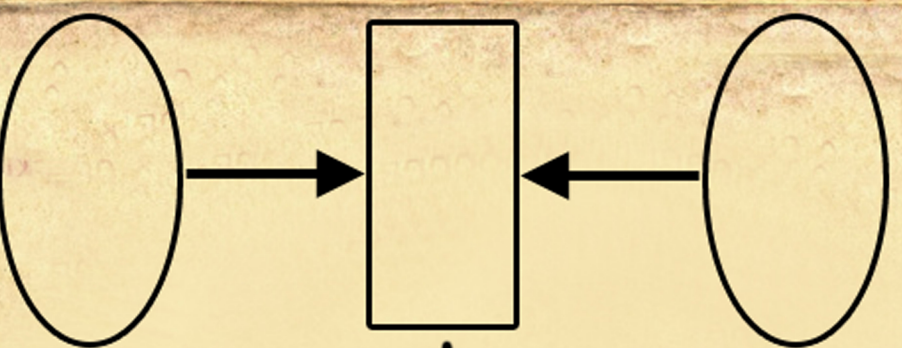

* Vestigial Structure:

* Artificial Selection:

* Define AND give an example

The Recipe for Evolution

Mechanisms of Evolution

1. _____
- _____
- _____
(inter- and intra-)
2. _____
3. _____
4. _____

Population
Adapts?
