OCT 26 1973

DALLAS, TEXAS

MRS. LYNDON B. JOHNSON PRESENTS UTHSC DEGREES

University of Texas Regent Mrs. Lyndon B. Johnson presented 104 Doctor of Medicine degrees and nine graduate science degrees during annual Commencement Exercises of Southwestern Medical School and the Graduate School of Biomedical Sciences of The University of Texas Health Science Center at Dallas.

The ceremonies at 8 p.m. May 28 in the McFarlin Auditorium on the SMU campus count as the 31st in Southwestern's history, and they marked the first joint commencement since creation of the separate Graduate School of Biomedical Sciences.

Mrs. Johnson, widow of the late President, was special guest at the graduation. A member of the Board of Regents of the UT System since 1971, she is chairman of the Regents' Academic and Developmental Affairs Committee.

Dr. Charles C. Sprague, president of The UT Health Science Center at Dallas, presided at the ceremonies and introduced the former First Lady.

A highlight of the program was the presentation of the Ho Din award to Dr. Barbara Murray, outstanding senior medical student, by the Southwestern Medical Foundation. Edward H. Cary Jr., Member, Board of Trustees of Southwestern Medical Foundation, made the presentation.

Continuing recent custom, graduates heard two commencement speakers - - one faculty member and one student - - of their own choosing. Dr. Jack A. Barnett, professor of internal medicine and chairman of the Division of Preventive Medicine & Public Health, was selected as faculty speaker, and Paul Tobolosky Jr., senior class president, was the student speaker.

Candidates for the M.D. degree - - 94 men and 10 women - - were presented by Dr. Frederick J. Bonte, dean of Southwestern. Dr. Ronald W. Estabrook, dean-elect of the Graduate School of Biomedical Sciences, presented candidates for Doctor of Philosophy and Master's degrees.

Among graduate degrees conferred were four Ph.D.s - - two in clinical psychology and one each in anatomy and biochemistry. Three Master of Arts degrees also were awarded, in anatomy, biochemistry and microbiology, as well as two M.S. degrees in radiological physics.

Dr. R. W. Estabrook

ESTABROOK CHOSEN TO HEAD BIOMEDICAL GRADUATE SCHOOL

Dr. Ronald W. Estabrook, a widely-known authority on drug metabolism, became dean of The University of Texas Graduate School of Biomedical Sciences here on June 1.

The graduate school is one of three units of The University of Texas Health Science Center at Dallas and its more than 85 students are taught by faculty of Southwestern Medical School.

In making the announcement, Health Science Center President Charles C. Sprague commented: "Dr. Estabrook is one of the foremost researchers in this country on the chemical mechanism of the body's use and disposal of drugs. He

JUNE, 1973

is, as well, an enthusiastic proponent of scientific education and advancement. We feel he is an excellent choice for dean of the Graduate School of Biomedical Sciences."

Dr. Estabrook is holder of the Virginia Lazenby O'Hara Chair of Biochemistry and is chairman of the Department of Biochemistry at Southwestern. He will retain both positions in his new capacity at the school.

Dr. Estabrook holds a number of positions with key government and private health agencies and committees. He is special consultant to the National Heart and Lung Institute and is Secretary-General of the Pan American Association of Biochemical Societies. The latter group represents 12 societies of some 10,000 professional biochemists in the Western Hemisphere.

This fall Dr. Estabrook will become chairman of the Council of Academic Societies of the Association of American Medical Colleges (AAMC). This group includes 52 academic medical societies.

Currently he is chairman of the Basic Science Review Committee of the Veterans Administration and is AAMC representative to the National Board of Medical Examiners. He is president of the Department Chairmen's Organization for Biochemistry in Medical Schools and is a member of the Task Force on the Cost of Medical Education of AAMC.

Dr. Estabrook is editor of *Zenobiotica*, the *Journal of Pharmacology* and *Experimental Therapeutics* and executive editor of *Archives of Biochemistry and Biophysics*.

Holder of a Ph.D. degree from the University of Rochester, Dr. Estabrook was named O'Hara Professor of Biochemistry on his arrival at Southwestern in 1968. Established through Southwestern Medical Foundation by Mrs. Virginia Lazenby O'Hara, the professorship was elevated to a full academic Chair earlier this year.

INTERNSHIP AND RESIDENCY APPOINTMENTS FOR 1973

The following have received intern and residency appointments for next year, according to the office of Student Affairs:

Arthur Reese Abright III, St. Vincents Hospital, New York, N.Y.; Carolyn Dickson Ashworth, Children's Medical Center - Parkland Memorial Hospital, Dallas; David Elsey Black, Presbyterian - University Hospital, Pittsburgh, Pa.; William Scott Blessing, Methodist Hospital, Dallas; Steven Paul Bowers, Baylor University Medical Center, Dallas; and Ernest Lacey Brady Jr., Methodist Hospital, Dallas.

Olmer Ronnie Brooker, University of Miami Affiliated Hospitals, Miami, Fla.; James Lee Brooks Jr., Wilford Hall, U.S.A.F. Medical Center, Lackland AFB; Michael Haas Brophy, The University of Texas Health Science Center Affiliated Hospitals, Dallas; and Janis Carole Edmonds Burns, University of Mississippi Medical Center, Jackson, Miss.

Robert White Burns, University of Mississippi Medical Center, Jackson, Miss.; William Lawrence Campbell, Residency in Psychiatry, Timberlawn Sanitarium, Dallas; and Daniel Gregory Capers, Residency in Psychiatry, Timberlawn Sanitarium, Dallas.

Harold Richard Capps, Parkland Memorial Hospital, Dallas; Diana D. Cardenas, University of Washington Affiliated Hospitals, Seattle, Wash.; John Tom Collier, Jr., University of Utah Affiliated Hospitals, Salt Lake City, Utah; Desmond Brian Corbett, Parkland Memorial Hospital, Dallas; and Joseph Paul Cotropia, The University of Texas Health Science Center Affiliated Hospitals, Dallas.

J. Paul Crider, St. Paul Hospital, Dallas; Steven Andrew Davis, University of New Mexico Affiliated Hospitals, Albuquerque, N.M.; Stevan Laurence Dinerstein, Baylor Medical College Affiliated Hospitals, Houston; Terrence Babbit Doan, City of Memphis Hospitals, Memphis, Tenn.; Marlowe Helen Donaldson, The University of Texas Health Science Center Affiliated Hospitals, Dallas; Noble Webster Doss Jr., Parkland Memorial Hospital, Dallas; Michal Aaron Douglas, University of Mississippi Medical Center, Jackson, Miss.; William Henry Edwards Jr., University of Mississippi Medical Center, Jackson, Miss.; and Randolph Charles Elliott, Methodist Hospital, Dallas.

William Davis Falvey, City of Memphis Hospitals, Memphis, Tenn.; Charles Emil Fisher, University of Texas Medical Branch Hospitals, Galveston; Theodore Ernest Fogwell, Parkland Memorial Hospital, Dallas; Charles Douglas Foutz, City of Memphis Hospitals, Memphis, Tenn.; Rosalind Claire Frank, Baylor University Medical Center, Dallas; Charles Tate Gauntt, Grady Memorial Hospital, Atlanta, Ga.; Bernard Michael Gerber, Parkland Memorial Hospital, Dallas; Joe Glickman Jr., University of Mississippi Medical Center, Jackson, Miss.; and Gary Robert Gosdin, Parkland Memorial Hospital, Dallas.

Robert William Hahn, Parkland Memorial Hospital, Dallas; Steven Arvel Haley, Parkland Memorial Hospital, Dallas; William Vandiver Harford Jr., Parkland Memorial Hospital, Dallas; William Richard Hencke Jr., St. Mary's Hospital, San Francisco, Calif.; Thomas Thoman Henderson, San Francisco General Hospital, San Francisco, Calif.; Johnny Lee Henry, St. Paul Hospital, Dallas; Robert Stanley Henry, University of Texas Medical Branch Hospitals, Galveston; Adrian Lee Herren, St. John's Hospital, Tulsa, Okla.; Robert Allan Heyer, University of Pennsylvania Hospital, Philadelphia, Penn.; and William Howard Hoffman Jr., University of New Mexico Affiliated Hospitals, Albuquerque, N.M.

Sidney Wayne Holec, Parkland Memorial Hospital, Dallas; Thomas McKenzie Hooton, University of Washington Affiliated Hospitals, Seattle, Wash.; Bruce Alan Hurt, Parkland Memorial Hospital, Dallas; Jack Marvin Hutton, Methodist Hospital, Dallas; Robert Logan James, Los Angeles County Harbor General Hospital, Torrance, Calif.; Frank Ray Johnson, Presbyterian Hospital, New York, N.Y.; Don Frederic Johnston, University of Louisville Affiliated Hospitals, Louisville, Ky.; Joe Henry Juren, University Hospital, Boston, Mass.; and William Bernard Klinke, Grady Memorial Hospital, Atlanta, Ga.

Roger Seaman Knapp II, William Beaumont General Hospital, El Paso; Edward Alan Kohl, Indiana University Medical Center, Indianapolis, Ind.; Norman Wallace Krouskop Jr., Methodist Hospital, Dallas; Michael Leo Kudla, Parkland Memorial Hospital, Dallas; James Lawrence Lapis, North Carolina Memorial Hospital, Chapel Hill, N.C.; Ernest Clinton Lawrence, University of

California Hospitals, San Francisco, Calif.; Jary Marshall Lesser, Brackenridge Hospital, Austin; Thomas Neilsen Long, University of Washington Affiliated Hospitals, Seattle, Wash.; Dale Clifford Moquist, University of Minnesota Hospitals, Minneapolis, Minn.; and Robert John Morrow, Baylor University Medical Center, Dallas.

Sydney Bonnick Morrow, Methodist Hospital, Dallas; Robert Lee Moss, St. Vincents Hospital, New York, N.Y.; Barbara Elizabeth Murray, Massachusetts General Hospital, Boston, Mass.; Jerry Albrecht Newton, U.S. Naval Hospital, Great Lakes, Ill.; John Laurence Earl Nugent, City of Memphis Hospitals, Memphis, Tenn.; David Melton O'Dell, Baylor University Medical Center, Dallas; William Charles O'Donnel Jr., Moses H. Cone Memorial Hospital, Greensboro, N.C.; Don Martin O'Neal, John Peter Smith Hospital, Fort Worth; Maria Elena Ortega, St. Paul Hospital, Dallas; and Daniel John Ostergaard, St. Mary's Hospital, Duluth, Minn.

Mary Cayce Paul, University of Kentucky Medical Center, Lexington, Ky.; Fred Irwin Polsky, Mount Sinai Medical School Affiliated Hospitals, New York, N.Y.; Bradley Bryan Price, Parkland Memorial Hospital, Dallas; Karen Bynum Price, University of Kentucky Medical Center, Lexington, Ky.; Vernon Gary Price, University of Kentucky Medical Center, Lexington, Ky.; Thomas Edwin Rain, University of Mississippi Medical Center, Jackson, Miss.; Henry Wesley Ratliff, Mount Sinai School of Medicine, New York, N.Y.; R. Douglas Rowley, St. Joseph's Hospital, Denver, Colo.; Ronald Jay Ruby, Baltimore City Hospitals, Baltimore, Md.; William Oscar Sarette, Hennepin County General Hospital, Minneapolis, Minn.; and Reynolds James Saunders, State University of Iowa Hospitals, Iowa City, Iowa.

Larry Wayne Schorn, Parkland Memorial Hospital, Dallas; Teddy Charles Scott, Baylor University Medical Center, Dallas; Jay Edward Selman, Bronx Municipal Hospital Center, Bronx, N.Y.; Stuart David Small, Los Angeles County - University of Southern California Medical Center, Los Angeles, Calif.; Harold Leroy Smitson II, University of Arkansas Medical Center, Little Rock, Ark.; Dan Elliot Steinfink, Harkness Community Hospital, San Francisco, Calif.; Wayne Edward Taylor Jr., University of Miami Affiliated Hospitals, Miami, Fla.; Paul

Arthur Tobolowsky, Boston City Hospital, Boston, Mass.; Terry Allen Treadwell, Scott and White Memorial Hospital, Temple; and Michael James Waldron, Parkland Memorial Hospital, Dallas.

John Allan Walker, University of Miami Affiliated Hospitals, Miami, Fla.; Rebecca Lynn Walker, Children's Medical Center - Parkland Memorial Hospital, Dallas; Stephen Frank Waller, Fitzsimmons General Hospital, Denver, Colo.; Sterling Edgar Walton, Baylor College of Medicine Affiliated Hospitals, Houston; Lahroy Alward White Jr., Residency in Otolaryngology, The University of Texas Health Science Center Affiliated Hospitals, Dallas; John Richardson Wilcos Jr., U.S. Naval Hospital, San Diego, Calif.; Michael Henry Williams, Wiford Hall, U.S.A.F. Medical Center, Lackland A.F.B.; and Douglas Wayne Wooldridge, Peter Bent Brigham Hospital, Boston, Mass.

* * * * *

IMPORTANT DATES COMING UP

June 11- August 31 - Summer Session Graduate School Registration: June 11, 9-11 a.m.

June - August Senior Summer Electives - - Four-week periods: June 11-July 8; July 9-August 5; August 6-31

June 18 - August 17 (Mon. - Fri.) Junior OB-GYN, Summer block

June 18 - August 31 Senior Surgery summer block

July 4 (Wednesday) Holiday
August 27 (Monday) Juniors register 8-10 a.m.; B-162; Classes begin 1 p.m.

August 30 (Thursday) Preregistration for graduate students, '73 - '74 session; 9-11 a.m.

September 3 (Monday) Labor Day Holiday

September 4 (Tuesday) Senior and sophomores register; 8:30 - 11 a.m.; B-162

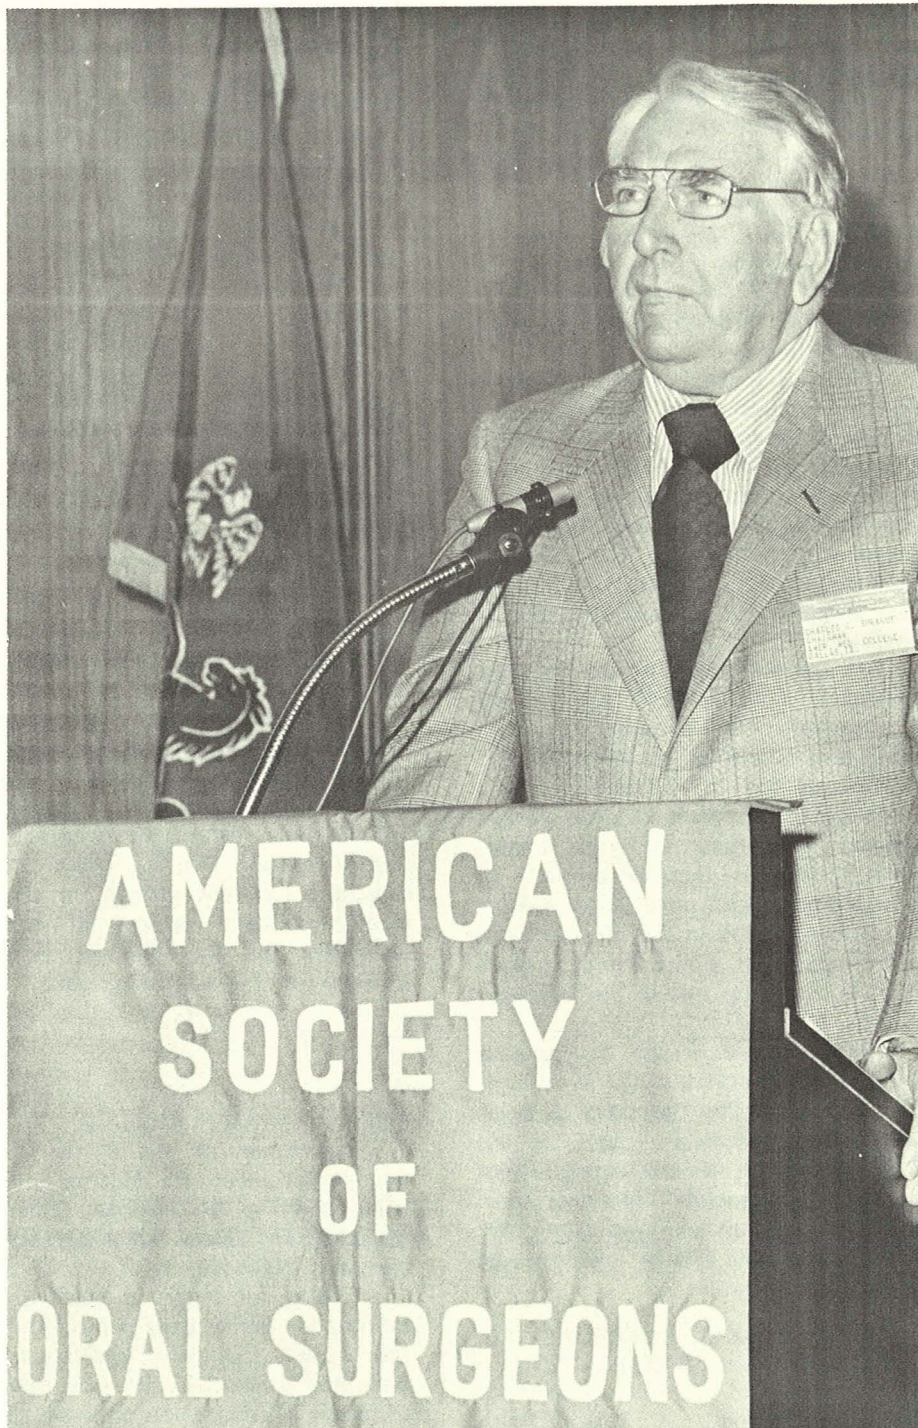

September 4 Graduate School first semester begins

September 4 Freshman Day
September 5 (Wednesday) Freshmen register 8-11 a.m.; B-162

September 5 Graduate school final registration, 2-3 p.m.

September 6 (Thursday) Freshman classes start 8 a.m.; B-162

Students concerned with senior electives away from Dallas between June and September, see Registrar Anne Rucker about preregistration, especially if you expect to be absent September 4.

Shown addressing some 700 oral surgeons and allied health professionals at the American Society of Oral Surgeon's Clinical Congress in Philadelphia is Dr. Charles C. Sprague.

DR. SPRAGUE ADDRESSES 700 ORAL SURGEONS

Dr. Charles C. Sprague, President of the University of Texas Health Science Center addressed some 700 health professionals at the four-day clinical congress sponsored by the American Society of Oral Surgeons recently.

In an address entitled "The Changing Washington Scene," Dr. Sprague reviewed legislation, federal programs and funding affecting health care in the United States.

"Much has been done, but much remains to be done. This nation has many things to be proud of in terms of its contributions to knowledge and technology which have advanced the cause of health more than any nation in the history of the world. The federal government through its support of the National Institutes of Health has placed a key role in these advances. But despite the progress in medicine, vast areas of ignorance remain."

Among the nation's concerns, Dr. Sprague pointed out that 150 percent of all deaths are still below the age of 70, that people under the age of 65 generate two-thirds of all short-term acute, patient hospital days, that 40 percent of the population suffers from some chronic condition that imposes some degree of disability and that on any given day, an average of 1.7 million people in the nation's work force are absent from work because of illness.

"While I applaud the federal government's restraint in holding down spending, I also must urge that priority be placed on fulfilling the still unmet and essential health needs of this nation."

Turning to the accomplishments of organized oral surgery, Dr. Sprague commended the American Society of Oral Surgeons for its leadership role in dentistry.

"I applaud your efforts in accomplishing a most difficult task for any organization - that of providing quality continuing education to its members," Dr. Sprague said. "It is evident to me in reviewing the program of your clinical congress and those of your annual scientific sessions, that the specialty of oral surgery in the United States is doing an outstanding job in this most difficult area of education. I have also been aware of your leadership role in the legislative arena."

Dr. Robert V. Walker, Professor of Surgery and Chairman of the Division of Oral Surgery at The University of Texas Southwestern Medical School, is the President of the American Society of Oral Surgeons. The society represents some 2600 oral surgeons nationwide, and over 900 of these hold faculty appointments at one level or another.

REGENTS MAKE REVISIONS ON HEALTH CENTER CONSTRUCTION

A number of construction revisions for The University of Texas Health Science Center at Dallas were approved by the UT System Board of Regents at their April 24 meeting.

On recommendation of the Dallas Center administration, the Regents voted to reject all bids received in March for a 600-car parking structure, authorized project architects Beran and Shelmire to revise plans so as to keep the facility within a cost of \$1.3 million and, finally, authorized readvertisement for bids.

Officials said original plans would have either sent the cost higher than expected or cut the number of cars which could have been housed in the structure.

The Regents approved relocation of a Faculty Center from a point adjacent to

the Academic and Administration Building to quarters within the Florence Bioinformation Center. Originally, the center was planned for 6,000 gross square feet. The new location will give it 10,000 gross square feet on the fourth level of the Bioinformation Center, which is now under construction. The Regents authorized drafting of new plans for the relocation.

Expansion of Physical Plant facilities at the Health Science Center, which is keyed to accommodations for nearly 1,000 medical and graduate students, had included central monitoring equipment and remodeling plans. However, a federal grant which was approved but unfunded caused officials to seek revision of the \$804,000 project.

In the latest action, the Regents dropped the monitoring system and other modifications and approved reduction of the project to \$326,000.

In other action, the Regents awarded furnishings contracts to Dallas Office Supply Co. at \$81,127.75 and to Regal Drapery and Carpet Service at \$45,638 for outfitting the Academic and Administration Building now under construction. Some changes in campus road work and grating of utilities easements for the Forensic Sciences Institute rounded out the agenda.

MEDLINE STARTS CHARGE

A charge of \$2.50 fee for a ten-minute search on Medline is now being made by the National Library of Medicine. The charge, which pays for line cost only, began May 1.

Charge for regular dissimulation of information on a given subject through the National Library of Medicine as it is published is now \$15 per year. The SDI (Selective Dissimulation of Information) service charge also began May 1.

Personnel at The University of Texas Health Science Center may pay for these services in cash or provide the MEDLINE office with an inter-departmental requisition with the name and department of the requestor and the number of the account to be charged.

Others using MEDLINE and SDI will be charged the same rates; however, payments must be made in cash. Telephone requests will still be accepted, but searches will not proceed until payment reaches the MEDLINE office.

For further information contact Cherry Green (2004) at the school.

MISCHELEVICH NAMED HEAD

Chairman of the new Department of Computer Science in the medical school will be Dr. David J. Mishelevich, who also is director of the Medical Computing Resources Center, announced Dr. Charles C. Sprague, president of the UT Health Science Center at Dallas. The department was activated May 1, he said.

Final approval for establishment of the new department was granted by the Coordinating Board, Texas College and University System April 13. The department was previously approved by the UT System Board of Regents.

Faculty of the new department will include the staff of the present Medical Computing Resources Center, which remains a function of the Health Science Center.

"We want to integrate our program of using computers as a natural tool into the curriculum of the individual teaching departments," said Dr. Mishelevich.

He said that a special course on "Computers in Medicine" would be offered in the Physician's Assistant Program of the UT School of Allied Health Sciences.

TV CUTS CLASS TIME

April marked the beginning of "Dr. Lebovitz's New Science Show."

The spring series of Robert M. Lebovitz's class in physiology, for non-medical students, is being currently seen via TV by a class of 10 men and 3 women in bioengineering and biomathematics programs. The taped lectures, viewed in the classroom, allows twice as much information to be presented each session, according to Dr. Lebovitz. Therefore, the class will meet for fewer sessions.

Following the video lecture presentation, Dr. Lebovitz is available for discussion and questions.

Arrangements can be made through the AV/TV department, producers of the series, for groups of students or individuals to review the lecture after 5 p.m. in the Center library, according to Dr. Thomas Sweeney, Ph.D., director. The films, according to Dr. Sweeney, can be viewed in their entirety or in part.

The series, he said, will also be shown to physiology classes for physician's assistants training and medical technology. They are also appropriate for medical students to use for review.

Also ready to use is a series for medical students on labor, Sweeney added.

E. Clinton Lawrence, Richard Burgess, Donald M. Mock, Fred I. Polsky, Jon C. Ransom, James F. Dunn, left to right, discuss their research projects with Dr. Kurt Benirschke, far right, guest lecturer for the Student Research Forum.

DUNN OUTSTANDING RESEARCHER

James F. Dunn, second-year medical student, has won recognition as the outstanding student researcher at The University of Texas Southwestern Medical School.

Dunn was named winner in a field of six finalists at the eleventh annual Student Research Forum of the School. Dunn was presented a plaque, \$100 in cash and \$25 book certificate during the program at the school's Skillern Student Union Thursday evening, April 26. Dr. Frederick J. Bonte, dean of Southwestern, made the award presentation.

Dunn's winning research, conducted independently under faculty supervision,

investigated the biochemical processes of male hormone absorption in mice.

Guest lecturer at the forum attended by almost 100 Southwestern faculty and students was Dr. Kurt Benirschke, professor of reproductive biology at the University of California, San Diego. His topic was "How Do Chromosomal Rearrangements in Man Relate to Evaluation?"

Runnersup in the competition, all of whom also received the cash and book prizes, were Jon Ransom, Richard Burgess, E. Clinton Lawrence, Donald M. Mock and Fred I. Polsky. Polsky presided as student chairman of the event, cosponsored by the Student American Medical Association chapter and Major's Book Store.

KAPLAN ARTICLE PUBLISHED

Dr. Norman M. Kaplan, nationally known endocrinologist at the UTHSC, is the author of a major feature article on hypertension in the April 2 issue of *Modern Medicine*, a leading national medical journal.

A native of Dallas, Dr. Kaplan is a professor of internal medicine at the University and head of the Endocrine Clinic at Parkland Memorial Hospital. He is now finishing a book, "Clinical Hypertension," to be published later this year.

Modern Medicine, a publication of the New York Times Media Company, is published every other Monday and serves nearly 200,000 U.S. physicians.

CENTER GETS CANCER PROJECTS

Nine research projects aimed at better understanding, detection and treatment of cancer have been approved for fellowship funding by the American Cancer Society at The University of Texas Health Science Center and Baylor University Medical Center.

The \$32,400 in grants will allow young investigators to pursue their experiments during one-year terms beginning June 1.

The cancer society already supports a number of senior researchers at both institutions.

The fellowships, for \$3,600 each, are awarded to:

Dr. Daniel M. Dansby of the Otolaryngology Division of UTHSC.

Dr. James Bernhardt Goodman of Baylor's Pathology Department.

Dr. Willis Manford Gooch III of the UTHSC Pathology Department.

Dr. Lloyd W. Kitchens of Baylor's Internal Medicine Department.

Dr. David Hablit of the UTHSC Pathology Department.

Dr. Robert Lloyd White II of Baylor's Pathology Department.

Dr. A. Eugene Jackson Jr. of UTHSC's Radiology Department.

Dr. John Burr Miller of the UTHSC Department of Obstetrics and Gynecology.

Dr. C. Robert Stanhope, also of the Department of Obstetrics and Gynecology at UTHSC.

INSTRUCTIONAL COMMUNICATIONS RUNS WORKSHOP

A workshop for representatives in community-service work from 40 different Texas cities and town was run recently by Dr. Fred Christen, director of Instructional Communications.

The workshop, which was sponsored by the Dallas Epilepsy Society, was a team effort put together by staff in Medical Art and Instructional Communications. The idea was to give the local representatives a quick "how to" course in utilizing audio/visual materials for specific projects, such as training, publicity, community service announcements, fund raising, etc.

The two-day meeting, held May 10 and 11 at the Quality Inn, included both theory and practice. Each representative took home a "kit" for finishing up a slide film on which they began working at the meeting.

GROUP PRACTICE PLACEMENT OFFERED FOR PHYSICIANS

A new HOTLINE telephone service is being offered by the Placement Service of the American Association of Medical Clinics. The AAMC - national representative for group practice physicians - offers this placement program at no charge to the physician.

Physicians interested in affiliating with a group practice may call AAMC Headquarters COLLECT (703/683-0216) between 3:00 p.m. and 5:00 p.m. weekdays, to register with the service.

Upon registration, a CV will be forwarded in accordance with the physician's specific desires to medical clinics throughout the United States. In addition to circulation of the CV, publication of a physician's profile will appear in the Association's Newsletter and the *GROUP PRACTICE* journal which has a circulation of more than 100,000.

HELLMAN SPEAKER FOR AOA

Louis M. Hellman, M.D., Deputy Assistant Secretary, Health, Education and Welfare, was speaker at the twenty-third annual Gamma Chapter, Alpha Omega Alpha, honorary medical society banquet at the Dallas Club Thursday, May 24 at 7:30 p.m. Dr. Hellman's subject was "The Complexities of Establishing a Policy for Population in the United States."

Students installed included Janis Edmonds Burns, Desmond Brian Corbett, Bernard Michael Gerber, Robert Allan Heyer, Bruce Alan Hurt, Frank Ray Johnson, James Lawrence Lapis, William Lawrence Campbell, Charles Tate Gauntt, William Vandiver Harford Jr., Thomas McKenzie Hooten, Robert Logan James, Joe Henry Juren, and Larry Wayne Schorn - all class of '73.

Members of the class of '74 initiated were Robert Patrick Burpo, Jerry Don Jennings, William Condon Reardon, Fred Monroe Ussery III, and Steven Edward Zinn.

Dr. John M. Dietschy, professor of internal medicine, was also initiated at that time.

Dr. Bryan Williams Jr., associate dean for student affairs, presented the candidates. Barbara Elizabeth Murray, chapter president, presided. Other officers are Ernest Clinton Lawrence, vice-present; Dr. Andres Goth, secretary-treasurer; and Dr. Jean D. Wilson, councillor.

RACE EDITS REFERENCE VOLUMES

Dr. George J. Race, professor of pathology and Associate Dean for Continuing Education at Southwestern, has completed editing four reference volumes on the organization, administration, technical and scientific operation of the modern medical clinical laboratory.

Dr. Race, who has offices at both the Center and Baylor, also serves as pathologist-in-chief and Dean of the A. Webb Roberts Center for Continuing Education in the Health Sciences at Baylor University Medical Center.

The project is one of the largest medical editing tasks of its kind ever completed in Dallas. The four volumes include contributions of 102 authors.

STUDENT PRESENTS PAPER

Jon C. Ransom, a student at The University of Texas Southwestern Medical School, presented a research paper at the Fourth Annual Midwest Student Research Forum, scheduled for April 12-14 at the University of Kentucky Albert B. Chandler Medical Center.

Designed to encourage original research efforts among medical students, the Forum attracted 30 participants from 22 colleges of medicine throughout the Midwest.

The title of Mr. Ransom's paper was "Antigen-Induced Arthritis: Presence of Immunoglobulin and Specific Antibody in Joint Collagenous Tissues."

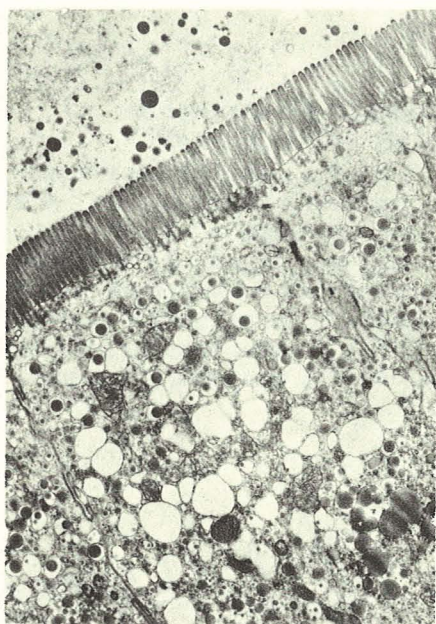

Abstracts of the student papers delivered at the conference are scheduled to appear later this year in the *Journal of Clinical Research*, one of the foremost medical research publications in the Nation.

HOSPITAL TV GETS GRANT

The Dallas Area Hospital Television System has received a three-year grant from the W. K. Kellogg Foundation of Battle Creek, Mich. The money will go toward the use of television in the member hospitals for inservice training of personnel in the health care field, as well as continuing education of physicians and patient education.

Hospitals in Dallas involved include Baylor University Medical Center, Methodist Hospital, Presbyterian Hospital, St. Paul Hospital, and Veterans Administration Hospital, as well as the Center.

Jay McKiernan is director of DAHTS.

TMA HOSTS SENIORS, PRESENTS CHECK

The Texas Medical Association, in cooperation with the Dallas County Medical Society, presented a "Conference on Medical Practice" for Southwestern Medical School's senior class the afternoon of April 27. Presentations included Internship and Residency Training; Physician Distribution and Practice Opportunities, Establishing a Practice and Medicine and Government.

At a dinner hosted by the TMA and Blue Cross-Blue Shield of Texas, Dr. Charles Max Cole, past president of the TMA and current member of the AMA's Council on Long-Range Planning and Development, delivered the main address. Dr. Cole also presented a check for \$4,104.25 to Southwestern's new dean, Dr. Fred Bonte. The check represents a grant from the AMA's Education and Research Foundation.

NEW ASSISTANT IN PERSONNEL

Ted E. Michael, new assistant director of personnel, joined the administration of the Center March 1. He is also serving as the school's equal employment officer at this time.

A 1967 graduate of North Texas, he was formerly with Control Building Systems, Inc. Mr. Michael's degree is in personnel management.

He and his wife Helen live at 1701 Cox, Carrollton, Tex. The couple has three children.

DR. JIMINEZ 'BOSS OF YEAR'

Dr. Juan Jimenez was elected Boss of the Year by Tecera Chapter (Irving), American Businesswomen Association recently.

GLASS WINS HONORABLE MENTION

Mickey Glass, microscopist in pathology, received an honorable mention award in the fifteenth annual SAMA-EATON Art Salon.

Mr. Glass's award, which was in the open division of electron photomicrography division was for two pictures: "Human Intestine: Normal Fasted" and "Human Intestine: Normal Lipid Absorbing". He used RCA EMU4 TEM, DuPont Cronar S film.

NORTH PUBLISHES BOOK

Dr. Alvin John North, Professor of Psychology and Neurology at The University of Texas Southwestern Medical School at Dallas, is a co-author of the fourth edition of *Psychology: Understanding Human Behavior*, published by the College and University Division of the McGraw-Hill Book Company.

Covering the standard topics presented in the introductory course, this new edition emphasizes the relevance of psychology to everyday concerns.

JENKINS MEMBER OF CMSS

Dr. M. T. Jenkins, chairman of anesthesiology, has been named to membership this year of the Council of Medical Specialty Societies and the AMA Interspecialty Council.

The CMSS is one of the five organizations involved in approving the "Functions and Structure of a Medical School" and in organizing the coordinating Council on Medical Education, the liaison committee on Graduate Medical Study and the liaison committee on Allied Health Education.

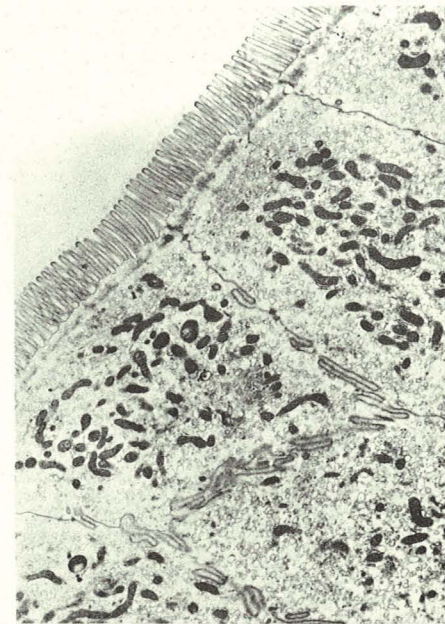

WANZER DRANE SPEAKS

Dr. Wanzer Drane, assistant professor and acting chairman of the Division of Biomathematics at The University of Texas Southwestern Medical School in Dallas, was guest speaker at a combined meeting of Beta Beta Beta (biological honor society), Biology Club, and Math Club March 22.

Drane presented reports on a series of "consulting experiences, all of which resulted in some publication."

FARIS ELECTED SECRETARY

Oden W. Faris, executive housekeeper for the Center, has been elected secretary of the Lone Star Chapter (state of Texas) of the National Executive Housekeepers Association. Mr. Faris' election took place at the group's monthly meeting April 12.

LIBRARY OFFICIAL SPEAKS

Charles Stevens, executive director of the National Commission on Libraries and Information Science, was a visitor to the UTHSC campus April 3. At a dinner the previous night hosted by Health Science Center Librarian Don Hendricks and Mrs. Hendricks, Stevens discussed the plans of the National Commission and the current role of the government in funding libraries.

SHEINBEIN WINS PRIZE

Marc Sheinbein, Ph.D., won the Publishers Prize at the late April meeting of the Southwestern Psychological Association in Dallas.

The title of Dr. Sheinbein's paper was "Marital Interaction Testing as a Procedure."

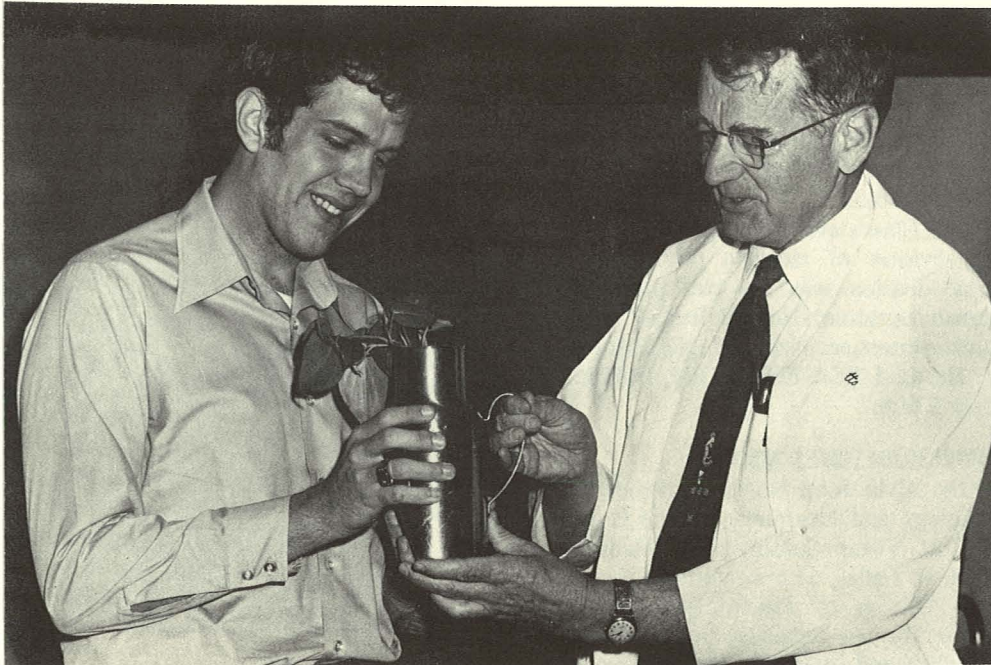

Dr. Sheinbein is an instructor in psychology at the school. The Publishers Prize is given to persons who have earned their Ph.D.'s within the last five years.

DRYDEN INSTALLED AS IMA PRESIDENT

Charles B. Dryden, M.D., has been installed as president of the 4,500-member Texas Medical Association. Dr. Dryden, who is a Southwestern graduate, is a well-known Wichita Falls urologist. The installation was in Dallas at the 106th annual TMA meeting recently.

HARRY SPENCE GIVEN MEDAL

Dr. Harry M. Spence, clinical professor of urology, has been awarded the Barringer Medal at the 1973 meeting of the American Association of Genito-Urinary Surgeons at Hilton Head, South Carolina in April.

CRUMPLER TO CONTINUE WATER BALANCE STUDY

Freshman student Charles Crumpler was presented a "living memory" of a momentous occasion recently.

As a prize for giving the outstanding answer on water balance on his final in physiology, he was presented an award by Dr. John C. Vanatta. Crumpler's scholarship earned him an ivy planted in a urinal.

Charles C. Crumpler
