DALLAS--Dr. Charles F. Gregory, chairman of the Division of Orthopedic Surgery at The University of Texas Southwestern Medical School, has been invited to be the principal guest lecturer at the spring meeting of the British Orthopedic Association.

Dr. Gregory will speak before the assemblage of distinguished British orthopedic surgeons and medical scientists Friday, April 5, at the University of Keele in Staffordshire, England. He is the only American invited to have a major part in the association's four-day program.

Topic of Dr. Gregory's Inaugural Guest Lecture is "Some Observations on the Postgraduate Medical Education of Orthopedic Surgeons."

The Dallas surgeon-educator has been chairman of orthopedic surgery at Southwestern since 1956, and has held the William B. Carrell Scottish Rite Professorship in orthopedic surgery since creation of that chair in 1965. He is immediate past president of the American Orthopedic Association and is currently serving on a national liaison committee on graduate medical education representing the American Board of Medical Specialties.
