NEWS ITEM - SOUTHWESTERN MEDICAL SCHOOL OF THE UNIVERSITY OF TEXAS

June 11, 1953

During the summer of 1953 two students of Southwestern Medical School of The University of Texas will work under \$400 Fellowships received from the National Foundation for Infantile Paralysis:

(1) Mr. E. Garrett Sills to participate in the virus research program now in progress in the Department of Bacteriology under the direction of Dr. S. Edward Sulkin, Professor of Bacteriology.

(2) Mr. Jerome M. Statman to participate in the program related to rehabilitation of polio patients with respiratory function disabilities under the direction of Dr. M. T. Jenkins, Professor of Anesthesiology.

G. N. Aagaard, M.D.
