******Mexican-American medical students
plan second annual Cinco de Mayo
event at UT Health Science Center.*

Judge Frank Hernandez will address a Cinco de Mayo (May 5) luncheon at The University of Texas Health Science Center at Dallas. Attending will be Mexican-American students at the center's Southwestern Medical School and invited guests, including Mexican-American physicians in the community. This is the second year the event has been held on campus.

These students have been active this year in talking with Mexican-American pre-med students about applying to UT Southwestern.
