DALLAS -- Dr. David Daly, chairman of the department of neurology at The University of Texas (Southwestern) Medical School at Dallas, will be chairman of a round table program during the 7th International EEG (electroencephalogram) Congress Sept. 14-19 in San Diego, Calif.

The EEG measures electric impulses of the brain, and is commonly used in study of the brain and its disorders.

Dr. Daly will be chairman of a round table on the EEG and metabolic disorders of the brain. He also will participate in another round table on the EEG and brain tumors.

In addition to serving as chairman of neurology at UTSMS, Dr. Daly holds the Scottish Rite professorship of neurology at the school.
