OF TEXAS

SOUTHWESTERN  
MEDICAL SCHOOL

VOLUME XVI NO. II

ISSUED IN DALLAS

SUMMER 1967

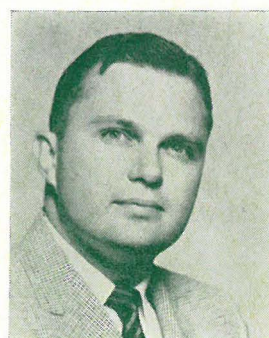

## *New Officers And Board Members*

At the annual meeting, DR. GEORGE J. RACE ('47) became the President of the Alumni Association and DR. DOYLE W. FERGUSON ('44) was chosen as President-elect.

Other new officers are DR. JOAN WINDMILLER ('58) Secretary-Treasurer and DR. NORMAN M. KAPLAN ('54) Editor of the Newsletter. DR. CHESTER E. COOK ('45) immediate past President of the Association became Chairman of the Board of Trustees. Two new members were elected to the Board — DR. ARCH D. CARSON ('48) and DR. CHARLES B. MULLINS ('58). Each served as President of his class and will be planning for their 10 and 20 year reunion in 1968.

These new officers are busy people and we are proud that they are willing to take the time to serve our School through the Alumni Association. Dr. Race is Pathologist-in-Chief at Baylor Medical Center in Dallas. He holds membership in 19 medical and scien-

tific societies and is the author of numerous research publications.

Dr. George J. Race

Dr. Ferguson has just completed a term as President of the Dallas County Medical Society. He is a member of the first class of graduates from Southwestern and will serve as Alumni President during our 25th Anniversary year. After many years as a practitioner in Dallas. He is now serving as Medical Director of Blue Cross-Blue Shield.

Both Dr. Windmiller and Dr. Kaplan are full time members of the Southwestern faculty, Joan in the Department of Pediatrics and Norman in the Department of Medicine. Dr. Carson is in general practice in Big Spring, while Dr. Mullins is on a year's leave of absence from the Department of Medicine to study at the National Heart Institute in Bethesda, Maryland.

## The End of Another Year

On Monday, June 5, commencement exercises marked the end of another year — the 24th — for Southwestern.

It was a good year —

Our student body has performed in an outstanding manner during the past year and has achieved a number of academic distinctions.

And, another outstanding group of 95 young men and women received their M.D. degree. Pointing to another increasingly important facet of Southwestern's teaching role, 6 M.A. degrees and 4 Ph.D. degrees were also awarded at the graduation ceremony.

Our faculty continued to grow and excel. Three faculty members — Dr. Hal Weathersby, Dr. John S. Chapman and Dr. Vernie Stenbridge received special

recognition, as described within the Newsletter.

Five faculty members, Dr. M. T. Jenkins, Dr. Jack Pritchard, Dr. Donald Seldin, Dr. Robert Stubblefield and Dr. Morris Ziff were elected to the Presidency of national major medical organizations, giving further evidence of the nation-wide esteem in which our faculty is held.

The expansion of physical facilities has continued, but never seems to quite keep up with our needs. This surely must be a healthy sign — we continued to outgrow our present facilities — indicating that Southwestern is WHERE THE ACTION IS.

All Alumni can take pride in the accomplishments of Southwestern during 1966-67. It was a very good year.

Alumni of

THE UNIVERSITY OF TEXAS  
SOUTHWESTERN MEDICAL SCHOOL  
AT DALLAS

### ASSOCIATION OFFICERS

GEORGE J. RACE, M.D. '47, PRESIDENT  
DOYLE W. FERGUSON, M.D. '44, PRESIDENT-ELECT  
JOAN WINDMILLER, M.D. '58, SECRETARY-TREASURER

### BOARD OF TRUSTEES

CHESTER E. COOK, M.D. '45, CHAIRMAN  
DEAN BUCHMEYER, M.D. '57  
ARCH D. CARSON, M.D. '48  
JOSEPH B. COBB, M.D. '47  
THOMAS A. LOMBARDI, M.D. '51  
CHARLES B. MULLINS, M.D. '58  
JERRY L. SIMS, M.D. '57

### EDITOR

NORMAN M. KAPLAN, M.D. '54

### FACULTY ADVISOR

JOHN S. CHAPMAN, M.D.

### EXECUTIVE SECRETARY

MRS. LOUISE B. HIPPE

## Alumni Association Increases Activities

As the Presidency was passed from Dr. Chester E. Cook to Dr. George J. Race, the Alumni Association can look back on an outstanding year. New activities were conducted along with our on-going work to "keep-up" and "in touch" with our almost 2,000 graduates.

These new activities included a party for the senior class, the presentation of a wallet-sized miniature diploma to each graduate and a reception for Southwestern Alumni attending the annual Texas Medical Association meeting in Dallas.

On Tuesday evening, May 30th, the entire senior class was honored at a party sponsored by the Alumni Association. For the first time, we made a special effort to show our students that we, as Alumni, are proud of them and they, as graduates, are important to the future of our school.

And, again for the first time, Southwestern graduates had a place to call their own at the Saturday evening "Alumni Hour" during the annual TMA meeting. The attendance of almost 100 Alumni made this a great beginning for what will surely now be an annual event.

For putting on both of these outstanding affairs, our special thanks go to our new Executive Secretary, Mrs. Louise B. Hipp, who is mainly responsible for the "new look" of our Association and we're delighted to have her with us.

## Alumni Awards Seven Scholarships

During 1966, the Alumni awarded \$1,750.00 in Scholarships to seven students, chosen by the Assistant Dean for Student Affairs on the basis of scholastic achievement and need. This money is obtained from your membership dues. Recipients of these Scholarships were: CHARLES M. REINERT, Sophomore, Denver City; MICHAEL JARRETT, Senior, Big Spring; MILTON DEAN HARRIS, Junior, Dallas; MARTHA ANN ANDERSON, Freshman, Arp; WILLIAM J. KRIPPNER, Freshman, Dallas; WILLIAM J. MORTON, Freshman, Dallas; M. MICHAEL SHABOT, Freshman, Houston.

The Scholarship Fund is \$1,000 per year. However, due to a deficit in funds in 1965, only one scholarship of \$250.00 was awarded. Last year, with an increase in paid memberships from 376 to 561, funds were available for these seven awards. If more Alumni pay their dues, we will be able to continue and to increase our Scholarship awards.

## Faculty in the News

### 1967 Marchman Award Winner

DR. JOHN S. CHAPMAN, Assistant Dean and Professor of Internal Medicine, was chosen for the Marchman Award presented by the Dallas Southern Clinical Society each year at its annual meeting. The Marchman Award, created in 1941, is bestowed on a Dallas physician "who has merited recognition for outstanding research or contribution to the advancement of medicine." Dr. Chapman, immediate past President of the American Thoracic Society, and Past President of the Dallas Area Tuberculosis Association, also serves as Area Consultant to the V. A. Hospital System. Dr. Chapman has contributed more than 75 publications to scientific literature. Long interested in the Alumni program, he has served as Faculty Advisor for many years and edited the "Sou'wester" until recent months.

### Stembridge Presented Top Award

DR. VERNIE A. STEMBRIDGE, Professor of Pathology, was recently chosen for the coveted Caldwell Award by the Texas Society of Pathologists. The award is named for the late Dr. George T. Caldwell, prominent Texas pathologist, and is the highest honor bestowed by the state organization. Dr. Stembridge joined the faculty in 1959, advanced to full professor in 1961 and was recently named Chairman of the Department.

### Piper Foundation Award

DR. HAL T. WEATHERSBY, Associate Professor of Anatomy was recently chosen from among the ranks of college and university faculties in Texas as one of the ten PIPER PROFESSORS. The Piper Award is in recognition of teaching excellence and other forms of scholarly achievement. Dr. Weathersby came to Southwestern in 1953 from Tulane.

## Personals

DR. JAY P. SANFORD, Professor of Internal Medicine, is the new President-Elect of The American Federation for Clinical Research. DR. MILFORD O. ROUSE, new AMA President, received an honorary doctor of laws degree from Baylor School of Dentistry at their commencement May 29. Dr. Rouse was a founder of our own Alumni Association, and is a Clinical Professor of Medicine at the School. DR. ROBERT LEON, Professor of Psychiatry at Southwestern, has been named Chairman of the Department of Psychiatry at the new Medical School at San Antonio. MRS. PATTY O'NEILL STAPP ('47) long time Associate Professor and Acting Chairman of the Department of Medical Art will resign as of July 31, and will retire to their farm in Arkansas. DR. A. J. GILL will remain with the School as Professor of Pathology.

### Minnie L. Maffett Scientific Fellowship Fund

DELORES MAE HUTTO CARRUTH, M.D. ('63) has been awarded \$6,500 for an 18 month postdoctorate study in Neonatology under DR. JACOB L. KAY, Ass't. Prof. of Pediatrics. Dr. Carruth is the first graduate of Southwestern chosen for this highly coveted award, which is accumulated through voluntary contributions of some 9,000 members of the Texas Federation of Business & Professional Women.

### Alumni Appointments to the Faculty

Alumni who have been appointed to the faculty for the 1967-68 school year are: DR. EUGENE R. BUMPASS ('57) Instructor in Psychiatry; DR. DOMAN KEELE ('53) Associate Professor of Pediatrics; DR. ROBERT PUTNAM ('62) Instructor in Pathology; DR. EDWIN SEAMAN ('60) Assistant Professor of Pathology; DR. DONALD W. ALEXANDER ('58) Assistant Professor of Otolaryngology and Chairman of the Department; DR. IVAN E. DANHOF ('62) advanced from Assistant to Associate Professor of Physiology; DR. ANN HUGHES ('59) advanced from Instructor to Assistant Professor of Psychiatry; DR. MALCOM O. PERRY ('55) advanced from Assistant to Associate Professor of Surgery.

## IN MEMORIAM

RAY W. STANLEY, 45 died of cancer on January 27, 1967 in Dimmit, Texas. Dr. Stanley received his M.D. from Southwestern in 1959. Prior to his move to Dimmitt in 1963, Dr. Stanley practiced in San Antonio and Houston. Dr. Stanley is survived by his wife, two sons and a daughter.

### Dallas Philanthropist Succumbs

KARL ST. JOHN HOBLITZELLE, one of the organizers and Chairman of the Board of the Southwestern Medical Foundation died in his sleep on March 8, 1967 at the age of 87. Long noted for his philanthropies and selfless civic works, Mr. Hoblitzelle donated the land for the University of Texas Medical School. The Karl Hoblitzelle Clinical Science Center was named in his honor.

## ALUMNI NEWS

JOE DIBRELL HEATH, M.D. ('45) is on a two month tour of service in Vietnam, under the AMA Volunteer Physicians for Vietnam Program. This program, administered by the AMA and financed by the U. S. Agency for International Development, is designed to supply medical care for civilians. Of the approximately 1,000 Vietnamese physicians, nearly 900 are in the armed forces, leaving only about 100 to care for 16 million people. Dr. Heath is a general practitioner in Kermit, Texas.

JOSEPH M. WHITE ('47) has been named Dean of the Medical Faculty of the University of Oklahoma. Dr. White, formerly Associate Dean, will also retain the position of Associate Director of the Medical Center.

CHARLES F. PELPHREY, M.D. (M '44) was recently installed as President of the Travis County Medical Society. Dr. Pelphrey, a pathologist, is a partner in the Clinical Pathology Laboratories in Austin.

HERBERT M. HINCKLEY, M.D. ('53) has moved back to Dallas from Buena Vista, Va. and is associated with The Chester Clinic.

ROGER C. TROUP, M.D. ('47) A note from wife Natalie says he's the only doctor in the County (Walsh, Colo.) and has difficulty getting time off. Their oldest son, a baby when Roger was a student at SMS, is now in his 2nd year of medical school. All total they have 6 children. "Perhaps we can grow our own extra doctor for the community," says Natalie.

JAMES H. BEARDEN, M.D. ('61) — wife Mary writes that Dr. Bearden has recently traveled for two months on a tropical medicine fellowship tour of Central America. He is in his 2nd year of research and teaching on a gastroenterology fellowship at the University of Arkansas Medical Center in Little Rock, Ark.

JESSE HAMILTON DICKSON, M.D. ('59) is presently a Fellow at Cornell in orthopedics. July 10 will find him in practice at the Kelsey-Seybold Clinic, Houston, Texas.

HERMAN I. MAY, JR. ('64) is currently at the U.S. Naval Hospital at Camp LeJeune in North Carolina. At the end of June, he is headed back to Shreveport, La. for a residency in surgery.

WILLIAM E. MONK, M.D. ('63) is now located in a clinic with ten other doctors as a general practitioner in Chula Vista, Calif.

FELIX VENDRELL, M.D. ('48) is a resident in Irradiation Therapy, while wife Doris, M.D. ('49) is a resident in Pathology at Baylor in Dallas.

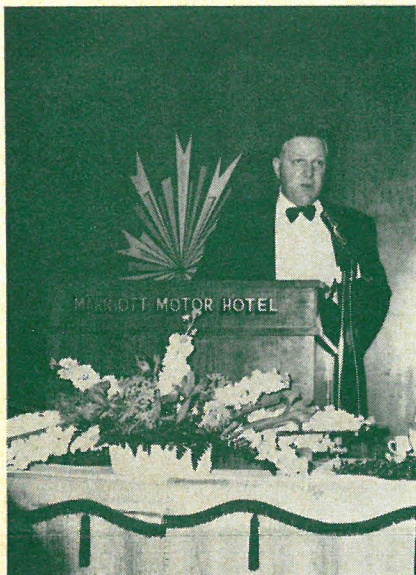

DONALD R. PAYNE, M.D. ('62) is in residency at Georgetown University in Washington, D. C.

## Among Our Alumni in the Armed Services

ARMY CAPT. ROY E. SPENCER, M.D. ('65) is with the 542nd Medical Company located near Qui Nhon, Vietnam. His wife, Carolyn, lives in Irving, Texas. JACK C. FITZPATRICK, M.D. ('46) was recently promoted to colonel and serves as Chief of the Nuclear Energy Division in the U. S. Army Medical Research and Development Command. He is married to the former Mary Evelyn Brown, who was a classmate as SMS. BERT M. FRANKS, M.D. ('60) has

(Continued on Page 8)

### Scenes from the 1967 Reunion

On the left, DR. CHESTER E. COOK, outgoing President, is saying "Progress is not automatic, and if we expect to maintain Alumni relations, enlarge our news media, and aspire to anything greater, we must have greater financial support. Now, men, the time has come for all good things to come to an end . . . the time has come to INCREASE THE DUES!" The membership voted unanimously to increase the dues to \$10.00 annually. DR. JOE COBB ('47) (center) tells of all the gray that's crept into the hair of the Class of '47 — except for those who've lost it all! DR. JERRY SIMS ('57) (lower left) reports that all members of the Class of '57 have finally finished their internships. DR. MILTON DAVIS (lower center), first President of the Association, is obviously pleased with the turnout for the reunion (150 registered) as he chats with DEAN GILL. DR. RAY SIMPSON (lower right), who came in from Alton, Ill., is a bit surprised to see DR. SYLVAN STOOL, now living in Merion Station, Pa., in Dallas — of all places! Both graduates of the Class of '47 traveled a combined 4,276 miles to renew friendships.

*The members of the Classes of 1947 and 1957. (Anyone who correctly identifies them will receive an entire wall of the old Freshman Lecture Hall shack — broken windows included!)*

## Alumni Day Activities

A new twist to the annual reunion and dinner-dance was added this year. On Sunday afternoon, March 12, a special assembly and tour of the School was held for Alumni. DEAN GILL gave a sparkling summary of the amazing progress of our School, starting with the faculty of 16 in 1943 holding classes in the pre-fab barracks between Old Parkland and the railroad tracks to the present faculty of 197 with property valued at over \$15 MILLION.

Thereafter, a tour of the School was conducted by

SAMA representatives, featuring the research laboratories of the clinical departments.

At the evening banquet, DR. FRANK HARRISON presented a plaque to DR. A. J. GILL on behalf of the Alumni. The plaque was inscribed: "To Atticus James Gill, M.D. whose stabilizing influence and leadership as Dean, 1955-1967 was a major contribution to the rapid growth of the University of Texas Southwestern Medical School, with grateful appreciation from the Alumni."

## THE BUILDING PROGRAM

There continues to be a great deal of interest in the developing building program for the medical school. As most of you will remember, the Basic Science Building (the Edward H. Cary Basic Science Hall) was completed in 1955, the Clinical Science Building (the Karl Hoblitzelle Clinical Science Center) was completed in 1958, and the Dan Danciger Research Center (which establishes the final link between the medical school and Parkland Hospital) was occupied in 1965. While these basic structures have provided the essential permanent space for the developing medical school, the rapid expansion of programs and personnel have made it increasingly necessary to add still more. Perhaps the greatest and most urgent need at the present time is further office and laboratory space for the expanding basic science faculty. While this need is of first priority and very urgent, it should be pointed out that certain of the clinical departments are already greatly crowded and in need of larger facilities.

A new department, Neurology, was organized in 1966 and became operational on July 1 with the arrival of Dr. David Daly, Professor and Chairman of the Department of Neurology.

In order to plan for the expanding requirements, a faculty committee has been working for many months with the consulting architects on the basic plans for a new building, tentatively designated as the Basic Science Laboratory Building. Simultaneously, another faculty committee has reached advanced planning stages for the new library building, to be known as the Fred Florence Biomedical Information Center.

In the long-range planning for the development of the Medical Center site it has also been realized that expansion of student teaching facilities will soon be necessary, as increases in enrollment seem to be inevitable. The consulting architects have prepared a long-range site plan which includes, in addition to the specific buildings mentioned above, an Administration Building, a Student Teaching Building, a Graduate Center which will include an auditorium and other related facilities, and extensive remodeling of large segments of the present Basic Science Building. At some time in the evolution of the Medical Center, major additional parking facilities will be required.

The site plan committee has long recommended a student housing program and this should be a project for the near future. In many respects it may be possible to move more rapidly in this area since it is quite likely that financing for student housing would be more quickly available than for certain other aspects of the developmental plan.

The Skillern Student Union has proved to be a most welcome addition to the Medical Center. The building is extensively used and fills a long-felt need. One of our great deficiencies continues to be adequate food service for the Medical Center and efforts are being made to plan a more effective means to provide essential food services.

Much has been done, but much remains to be done. The strong support of Central Administration and the Board of Regents made it possible to foresee a sequence of carefully planned physical plant additions which will go far toward enabling us to realize our desire to be among the outstanding medical institutions.

## Special Honors Received by 1967 Graduates

Each year, certain members of the graduating class are chosen for awards and honors given for academic excellence and those special characteristics that mark an outstanding student.

The highest award for a senior student, the Ho Din Award of the Southwestern Medical Foundation, was shared this year by WILLIAM LARKIN BERRY of Gilmer, Texas and JONAS EDWARD ROSENTHAL, JR. of San Antonio. Both Drs. Berry and Rosenthal had received Dallas County Medical Society Scholarships and Dr. Berry had also been awarded the Roche Laboratories Award as the outstanding junior student.

The Dallas-Ft. Worth Obstetrics and Gynecologic Society Award for the outstanding student in Obstetrics and Gynecology went to BENNIE WARD LANE of Coleman, Texas.

Other students who received special honors were: LARRY GENE DOSSEY, Minnie L. Maffett Scholarship; HERBERT SIDNEY SALOMON, Pfizer Laboratories Scholarship; BARRY NEIL SILBERG, Phi Delta Epsilon Fraternity Scholarship, and WILLIAM KENNARD RUNDELL, JR. the St. Paul Hospital J.O.S. Holt General Practice Scholarship.

The following students were elected to ALPHA OMEGA ALPHA:

GEORGE NELSON ARMSTRONG, JR., FRITZ ENGEL BARTON, JR., WILLIAM LARKIN BERRY, GEORGE THOMAS BOYETT, JR., SAMUEL YANDELL DORFMAN, JR., THOMAS DANIEL EASLEY, VICTOR ENGEL HUDMAN, JOHN PATRICK KINNEY, BENNIE WARD LANE, JERRY SPRUCE LEHMANN, JAN ERNEST LOUDERMILK, EARL BERTRAM MATTHEW, RODERICK MATHEW NUGENT, JR., THOMAS EDWARD RADER, JONAS EDWARD ROSENTHAL, JR., and ROBERT MARTIN SPECTOR.

## Student Research Forum Papers

### Student Research Forum Papers

Another honor was given to four graduates for having presented Student Research Forum papers. This forum is held every year for the presentation of outstanding research work performed by students during summer fellowships in various departments at the School. The four students were:

JAMES MICHAEL ATKINS, JAN ERNEST LOUDERMILK, JAMES WILLIAM HAMMOND, JR., and JOHN WALTER LANIUS.

## Other Awards

### Other Awards

ROBERT HAMILTON SMALLEY received the American Academy of Dental Medicine Award. GEORGE THOMAS BOYETT, JR., THOMAS EDWARD RADER, BENNIE WARD LANE and THOMAS DANIEL EASLEY received the Lange Medical Publications Book Award. ROBERT MARTIN SPECTOR and EARL BERTRAM MATTHEW received the Merck and Company Book Award. The C. V. Mosby Company Book Award went to five senior students—GEORGE NELSON ARMSTRONG,

*(Continued on Page 8)*

## 1967 Graduates Scatter for Internships

As a new service to our Alumni, we will, each year, publish the list of graduates by the locale of their internship. Thereby, Alumni in these various places can look up the Southwestern graduates and give them a special welcome. Particularly for those graduates going to far-away places, personal contact with a fellow Alumnus would do much to make the spirit of Southwestern shine on.
