THREE UT SOUTHWESTERN FACULTY RECEIVE HONORS

DALLAS - March 15, 1998 - Three faculty members from UT Southwestern Medical Center at Dallas were recognized recently for outstanding achievement in their fields:

The Oral and Maxillofacial Surgeons Foundation presented **Dr. Edward Ellis III**, with its 1997 OMSF Research Recognition Award, which recognizes outstanding accomplishments in oral and maxillofacial research. Ellis, a professor of oral and maxillofacial research at UT Southwestern Medical Center at Dallas, is nationally known for his clinical and laboratory work on musculoskeletal adaptation to corrective trauma surgery.

Dr. Gordon Green, dean of Southwestern Allied Health Sciences School, has been elected to serve as president of the Dallas County Medical Society in 1999. He will serve in the capacity of president-elect during 1998. Green, a pediatrician and UT Southwestern alumnus, also earned a master of public health degree from the University of California, Berkeley. He has served as the dean of the allied health sciences school since 1991. He was formerly the director of the Dallas County Health Department.

Dr. Scott Grundy, director of the Center for Human Nutrition at UT Southwestern Medical Center, was doubly honored at the American Heart Association 70th Scientific Sessions. He received the Distinguished Achievement Award from the AHA Scientific Council, an award which recognizes individuals who have made major contributions to the affairs of the council over a continuing period and who have made substantial professional contributions to the scientific field. He also earned a Special Recognition Award from the AHA Council on Arteriosclerosis, Thrombosis and Vascular Biology for his efforts and leadership in guiding the merger of the councils on arteriosclerosis and thrombosis and the AHA Working Group on Vascular Biology.
