

NEWS ITEM - SOUTHWESTERN MEDICAL SCHOOL OF THE UNIVERSITY OF TEXAS

On April 27, 1953 at the Shamrock Hotel in Houston the alumni of Southwestern Medical School of The University of Texas will hold their first annual banquet. This marks the tenth birthday of this medical school and the organization of the Alumni Association which will take place is a fitting commemorative of a decade of work.

It is expected that the alumni of Southwestern Medical School will meet regularly henceforth each year at the time of the meeting of the Texas State Medical Association. Officers will be elected and the Alumni Association is expected to become quite an active group in the affairs of the school.

Attending the banquet will be a number of members, both present and past, of the faculty of Southwestern Medical School and there will be a short address given by the Dean, Dr. George N. Aagaard, after which the organization of the association will take place.

John S. Chapman, M.D., Ass't. Dean
Graduate and Postgraduate Education
