DALLAS--William W. Fitzgerrel, a graduate student in physiology at The University of Texas Southwestern Medical School, has been chosen to present a scientific paper at the 56th annual meeting of the Federation of American Societies for Experimental Biology.

Mr. Fitzgerrel, son of the Rev. and Mrs. John Fitzgerrel, formerly of Matador and now of McAdoo, will have as his topic, "The Effect of Ouabain on Sodium and Potassium Transport in the Toad Bladder." This work is part of a larger scientific investigation in the UTSWMS Department of Physiology aimed at discovering mechanisms of kidney function.

A dozen faculty members and associates from the medical school will be presenting papers at the April 10-14 FASEB meeting in Atlantic City, N.J.
