UT Center.*

DALLAS--Three Russian scientists participating in an international scientific exchange between the U.S.A. and the U.S.R.R. will visit The University of Texas Health Science Center next week.

They are Professor V. Nassonova, head of the Institute of Rheumatism, Moscow, Dr. A.I. Speransky and Dr. M. Ivanovna, all involved in research in arthritis. Their host at the Health Science Center will be Dr. Morris Ziff, professor of internal medicine. Dr. Ziff visited Russia on the exchange program last fall. The UT center is one of four research centers in the country being visited by the arthritis research team.

The scientists will be available for interviews following a luncheon at Brook Hollow Golf Club Wednesday, May 14 at approximately 1:30 p.m.
