Friday, May 16 students at U.T. Southwestern Medical School will stage a mock takeover of the school auditorium and drag a hopefully surprised Dr. Bryan Williams on stage for a bogus tenure review at 5 p.m. in Gooch Auditorium.

The occasion is a celebration by students, faculty and employees of the Health Science Center of Dr. Williams' fifth year in his position as associate dean for student affairs. He will be "roasted" on stage by "The Ad Hoc Review Committee for Tenure of the Associate Dean for Student Affairs."

Dr. Williams is a favorite of the medical students who planned the event, an informal reception (without Dr. Williams) before and a formal reception following.

Jerry Lewis is president of the UT Southwestern chapter of the Student American Medical Association.
