

# news THE UNIVERSITY OF TEXAS HEALTH SCIENCE CENTER AT DALLAS

Southwestern medical school • graduate school of biomedical sciences • school of allied health sciences

Contact: Bob Fenley

DALLAS--Dr. Charles B. McCall, former director of the Regional Medical Program of Texas, has joined The University of Texas Health Science Center.

Dr. McCall, a chest specialist, will be Associate Dean for Clinical Affairs for Southwestern Medical School and Director of the Office of Grants Management and Development for the Health Science Center, according to Center President Dr. Charles C. Sprague.

He will have an academic appointment of associate professor in the medical school's Department of Internal Medicine.

*Dr. McCall was active in promoting RMLP and helped fund the JALON serials list.*

"Dr. McCall already has made significant contributions to health in his teaching career and in his tenure with the Regional Medical Program," commented Dr. Sprague, adding, "I am extremely pleased he has accepted these important new assignments at the health center."

Dr. McCall received his B.A. degree from Vanderbilt University in 1950 and graduated from its medical school three years later-- finishing first in his class and receiving the Founders Medal.

After medical internship at Vanderbilt University Hospital, he was named a clinical associate of the National Cancer Institute. In 1956-57 he was senior assistant resident in medicine at the University of Alabama and the following year was named a Fellow in Chest Diseases by the National Academy of Sciences--National Research Council. He returned to Alabama to become Instructor and chief resident in Medicine.

Dr. McCall moved to the University of Tennessee in 1959, becoming assistant, then associate professor and then was chief of Pulmonary Disease for Tennessee's Department of Medicine.

In 1969, Dr. McCall came to Texas to head its Regional Medical Program under the auspices of The University of Texas System. The RMP is an effort to bring the latest advances in medicine to the people with the least possible delay.

At the same time, Dr. McCall was named Professor of Medicine for The University of Texas Medical Branch in Galveston and Assistant to the Executive Vice Chancellor for Health Affairs, The University of Texas System. In 1971, he was named Assistant Vice Chancellor for the system.

*on the R-A-C, we hope that Dr. McCall will be able to serve since his input would be a great asset.*  
In his career, Dr. McCall has been editor of the Memphis and Mid-South Medical Journal and occupied posts of chest consultant and Director of Inhalation Therapy for City of Memphis Hospitals.

He was president of the Southern Thoracic Society in 1968-69 and is a member of a number of other professional groups, including the American Federation for Clinical Research, American College of Chest Physicians, American and Texas Thoracic Societies, Texas and American Medical Associations, Sigma Xi and Alpha Omega Alpha.

Dr. McCall is the author of a number of scientific papers dealing with chest diseases.

The new associate dean is married and he and his wife have four children.
