DALLAS--One of the country's top researchers on retinal mechanisms will be here Oct. 10 for a lecture and conferences at two medical institutions.

Dr. John E. Dowling of the Department of Biology at Harvard University will speak before the North Texas Chapter of the Society for Neurosciences at 8 p.m. Wednesday in the Callier Speech and Hearing Center. He will also confer with residents of Ophthalmology and Neurology departments at The University of Texas Southwestern Medical School.

Dr. Dowling is appearing under sponsorship of the Grass Foundation's Traveling Scientist Program. Title of his Wednesday talk will be "The Functional Organization of the Vertebrate Retina."
